EAST LIVERPOOL, O., FRIDAY, APRIL 19, 1901.

TWO CENTS

## MILLER'S ALLEGED ASSAILANT LODGED IN THE COUNTY JAIL

He Proves to Be Charles Curtis Staub, a Canton Barber, and a Son of Miller's Neighbor.

## WOUNDED MAN'S CONDITION PRECARIOUS

The Would-Be Robber Was Masked When He Appeared In the Barn. When a Handkerchief Was Placed Over His Face the Millers Positively Identified the Prisoner—The Chase of the Officers Aided by Bloodhounds.

Andrew Miller, the aged farmer of Bayard, who was shot three times by a would-be robber yesterday morning, is reported resting comfortably today, with the physicians hopeful of his recovery, though they admit that his wounds are very serious and that complications may set in at any moment which are liable to result fatally.

His assailant has been absolutely identified and is now behind jail bars at Lisbon, and doubtless a term in the penitentiary is ahead of him. He stoutly denies his guilt, but Miller's neighbors say his appearance is against him. The prisoner is not Charles Staub, of Alliance, as Alliance reports stated, but Charles Curtis Staub, a son of Otis Staub, of Minerva, who is one of Mr. Miller's neighbors. Staub is a barber, 32 years of age, who is married, but does not live with his wife. He was working in Canton until a week or two ago, when he disappeared from there and had not been seen since until he turned up yesterday in the vicinity of Homeworth.

Staub's arrest, so Deputy Chris Bick states, was made by Detective Joseph Moore, of Wellsville, who met him on the railroad track and held him for the arrival of the other officers. He was caught at McGarry's tower, near Homeworth. When Sheriff Noragon came he took the pris-

oner on a hand car and started south for Bayard. Deputy Bick, who was in a road wagon, intercepted the hand car going south, and the prisoner was then taken on to Miller's in the wagon. Bloodhounds from the Canton workhouse were used in tracking the fugitive, but there is a dispute as to whether they were of material assistance.

When taken to Andrew Miller's house, and a handkerchief placed over part of his face, as he wore it in the barn, Staub was fully identified, not only by Mr. Miller, but by Jake Adams, the hired man, and by Mr. Miller's sister, who met the prisoner and her brother as they were running from the barn after the shooting and had a good view of him. The assault took place at 4:30 a. m.

The officers say there can be no doubt that Staub is guilty. A revolver bullet found on the barn floor fits Staub's weapon. A trousers' hook, such as are used in fastening the waistband, was also found on the barn floor and the hook from Staub's trousers is missing.

Sheriff Noragon and Deputy Bick arrived last night at Lisbon with their prisoner. On arrival the prisoner was at once taken before Squire Riddle and held for the grand jury in the sum of \$1,000. Bick says Miller cannot recover, as he was shot through the jaw, the neck and the breast just over the heart.

## VERY FAVORABLE TOWARD METZGER

Were the Affidavits Presented by the Defense In Judge Boone's Court.

## THE COURT SAT UNTIL 10 P. M.

Congressman Taylor Presented a Brilliant Argument in Behalf of the City Solicitor of Salem—His New York Ticket Not Complimentary.

Lisbon, April 19.—(Special).—Probate court was in session until 10 o'clock last evening, the whole time being taken up by Congressman R. W. Taylor in an appeal for a new trial for City Solicitor L. P. Metzger, of Salem. His brilliant argument was preceded by that of his co-counsel, ex-Prosecutor C. S. Speaker. Judge Boone has not yet passed upon the motion.

The defense presented a number of affidavits, which were not refuted. They made a strong impression in favor of the accused. The affidavit of Miss Mary Camp was first read. It stated that Metzger received \$50 during April, 1900, by check from B. S. Ambler, enclosed in a letter and that Metzger returned the same to the sender with a note of thanks.

Miss Nannie Doyle, stenographer for B. S. Ambler, said in conversation with Metzger, that he (Metzger) had asked her to make an affidavit in support of his motion for a new trial, and that Ambler said to her: "Well, I hope you didn't make it for him." Miss Doyle refused to make affidavit regarding the matter for the reason that she was in Ambler's employ, saying she did not think she ought to contradict him, but would testify in case a new trial was granted. These statements are included in an affidavit of Metzger.

Attorney George T. Farrell made affidavit that he called on Miss Doyle a week ago and states that she said she was present at the conversation between Ambler, Metzger and Dunn and says she did not hear Metzger say to Ambler: "You have given me away to my worst enemy, James Sears." She says Metzger did say to Ambler: "You may tell whoever you please about my receiving money from the city of Salem for transportation to New York and you may publish it in the newspapers and placard it on your house." Miss Doyle refused to make affidavit on three different occasions, because she was employed by Ambler and did not think it would be right to contradict him. Farrell also swears that she refused on April 17 to make affidavit because Ambler did not want her to. He also swears that Ambler interfered by saying that he did not care to have Miss Doyle annoyed and that he had advised her not to sign the affidavit. Miss Doyle also said to Farrell on April 17 that Ambler had said to her that he did not remember of Metzger saying to him: "You have given me away to my worst enemy."

S. B. Jennings of the firm of Stetson, Jennings & Co., of New York, made affidavit as to the ticket to New York, which he furnished to Metzger. He says he purchased a regular excursion ticket and that it was not marked "complimentary." He also swears he formed a very favorable opinion of Metzger and of his business ability and faithfulness to the interests of the city of Salem. A fac-simile of the ticket is attached to the affidavit, showing it to be a regular excursion ticket.

Two affidavits were filed by the prosecution—one by B. S. Ambler and the other by M. L. Mardis, ticket agent of the Salem railroad. Ambler's is long and consists of a general denial of all charges made by the defense in support of the motion for a new trial. Ambler says that Jennings is mistaken in everything he says and his statements all false. Mardis' affidavit is also a general denial of alleged conversations with Metzger in

which the latter is said to have declared that he expected to pay for the railroad ticket.

## SUED FOR A DEED

SAMUEL FROST DEFENDANT IN AN ACTION.

Alleged to Have Sold Lots And Failed to Give Deed—Other Cases in Court.

Lisbon, April 19.—(Special).—Samuel Frost and wife were made defendants today in an action filed by Jesse D. Holloway. Frost owns lots 537 and 538 in East Liverpool, and during the month he agreed to sell them to Holloway for \$2,490. It is now claimed that the defendants refused to give a deed for the property and court is asked to compel them to do so.

The case of John W. Post against Edwin M. Hukill was submitted to court this morning and judgment was rendered in favor of the plaintiff for \$382. A claim of \$872.65 was set up; also a counter claim leaving the amount of the judgment.

In the case of Wing & Evans vs. the Specialty Glass company, a motion asking to set aside a verdict of the jury was overruled and 50 days given in which to file a bill of exceptions.

The cases of Martha E. Guyton vs. Orlando D. Smith, Wm. P. Cooper vs. Jackson and the Monongahela Combination Coal and Coke company vs. James H. Page et al have been dismissed. The case of Robert Hall vs. John Porter has been settled.

No will was found in the estate of Cornelia Morris, late of Fairfield township, and Mahlon Morris was appointed administrator with \$3,400 bond. A. T. Heaton, J. B. Lyder and James Whitacre, appraisers.

## THIS CITY GETS IT

COMING BROTHERHOOD CONVENTION TO MEET HERE.

East Liverpool Was 81 Votes Ahead of Trenton, Next on the List.

Secreary Duffy today completed the work of canvassing and tabulating the returns of the vote upon the convention city.

The result of the vote showed that East Liverpool had won by 81 votes over Trenton. The other cities which competed for the convention were Akron and Steubenville. They were supported in the order named.

## CREDITORS TAKE IT

Have Possession of the American Laundry Machinery in the East End.

The American Steam Laundry has been forced to the wall. J. J. Purinton and others who held chattel mortgages on the machinery and equipment took possession of the plant a few days ago. This is in effect the same as an assignment, as the mortgages amount to more than the value of the plant. This laundry has been in operation for about two years.

J. S. Rayl and John Forbes have entered suits in attachment in Justice McCarron's court for \$37.50 and \$53.72, respectively, which they claim due from this company.

## STILL IMPROVING THEM

The Y. M. C. A. Rooms Will Soon Be Something to Be Proud Of.

The improvements at the Y. M. C. A. continue. The tile has arrived and will soon be in place; the bath and locker rooms are being painted white and will be varnished, and the awnings have arrived and will soon be in place. If the boys are not proud of their association they should be.

Last night's gym class had eight in it and was led by Mr. Zang. This afternoon, 5 to 6, the first business men's class will be on the floor, led by Mr. John Wallace.

## Robbers Still at It.

Pittsburg, April 19.—The robbers are still at it. Joseph Kountz, on the Braddock road, lost \$1,000 worth, and A. J. Unks, 4539 Second avenue, was held up and relieved of \$1,700.

## RUNAWAY WIFE LOCATED HERE

Alleged to Have Left Her Home In New Cumberland With Another Man.

## THOMAS BILLS IS IN JAIL

Mrs. Alice Sheets, Who Has Been Working in This City for Three Weeks, Is in Trouble—Left in Destitute Circumstances—Her Story.

Constable Miller has earned the reputation of being a very clever detective, but his work of yesterday far surpasses anything in that line he ever before attempted.

Mrs. Alice M. Sheets has been absent from her home in New Cumberland for about three weeks. Yesterday her husband, Thomas Sheets, came to this city and placed his case in the hands of Justice McLane. He had reasons for believing his wife was in East Liverpool. He said he had traced her as far as Wellsville, where, until a short time ago, she had been employed by a family named Sheckler.

Sheets informed the authorities that his wife had left New Cumberland with Thomas Bills, who had boarded with them there. He thought if Bills could be found it would not be hard to locate his wife. He swore out a warrant against Bills.

After some difficulty the constable learned that Bills was quartered at the Daley boarding house, Eighth street. Some time during the forenoon he removed his badge and paid a visit to the house. He encountered a woman at the door who, he knew from the description given by the husband, was Mrs. Sheets. He made inquiry for Bills, and was told that he was out. Miller represented that he was in the furniture business and wanted a driver. Bills was recommended as the man for the job and an interview was arranged. The arrest was easy. Sheets could not be found. He is supposed to have gone home.

Early this morning Mrs. Sheets and her little daughter Gracie were at the 'squire's. She is a good looking woman of about 25. Learning that nothing had been heard from Sheets she was bitterly disappointed and she was weeping when a reporter accosted her. She said she had been working at Wellsville, having gone there about three weeks ago. She had left her place there because of trouble with her employers. She came here and got work with a Third street family. Bills, who had been at the place where she worked in Wellsville, came on here. Mrs. Sheets got a situation at Mrs. Daley's, after she had finished on Third street, and Bills came there to board. He has been there ever since. She did not know why her husband had made the charges. She was with him yesterday, and went to the train when he left. She said she had never had trouble with Sheets and never put him out of the house at New Cumberland to take Bills in. Her husband was in debt and had consented to her working in Wellsville to help pay his obligations, she said.

Mrs. Sheets said she was destitute, and was endeavoring to secure enough money to send word to her father, who lives in New Cumberland. She stated she had nowhere to go with her child, as the Daley people had put her out and would not permit her to stay there.

Mrs. Sheets telegraphed her father just before noon, and it is likely her husband will arrive this afternoon.

If Sheets is not heard from by this evening Bills will be released.

## THE BASE BALL SEASON.

It Opened Yesterday, But Only One Game Was Played.

Although the base ball season opened yesterday, on account of the bad weather, only one game was played in the National League. It resulted as follows: Brooklyn 12, Philadelphia 7.

## HIS LIFE THREATENED

MACK STANLEY, OF JETHRO, CALLED FOR PROTECTION.

Had George Biddle Arrested But Would Not Guarantee Payment of Costs.

George Biddle and Mack Stanley, whose houses adjoin each other in Jethro, have been engaged in a jangle for several days, and the climax was reached last evening when Biddle is alleged to have told his neighbor that if he persisted in bothering him he would kill him.

Stanley lost no time in covering the distance between Jethro and the office of Justice McLane, where a warrant was sworn out charging Biddle with threatening his life.

Constable Miller arrested Biddle late in the evening, and arrangements were made for him to appear this morning. He pleaded not guilty when arraigned, and as security was demanded to cover the costs, the case was not set for trial.

Stanley refused to give bond to secure the costs, saying he merely came into court in an endeavor to secure protection for his family and property. If he couldn't get that without giving bond he had no desire to proceed with the case, and it was dismissed.

## CHINA COMES TO TERMS

EDICT ISSUED FOR WITHDRAWAL OF HER TROOPS.

Will Leave Huai-Lu And Franco-German Expedition Will Be Abandoned.

Pekin, April 19.—(Special).—An imperial edict has now been issued for the withdrawal of Chinese troops from Huai-Lu. The Franco-German expedition has consequently been abandoned.

## LIBRARY BOARD VISIT.

ITS TRIP TO PITTSBURG AFTER IDEAS ON ARRANGEMENTS.

Members Much Pleased With the Result of Investigation at Lawrenceville.

The members of the Carnegie board who visited the Lawrenceville branch yesterday, arrived home last evening, and are very much pleased with the result of their investigations. The party was made up of George Peach, W. C. Thompson, G. Y. Travis, J. J. Purinton, Clerk Hanley and Architect Scott.

The floor plan of the Lawrenceville branch is the same as that laid out for the building here, and consequently the board members were able to get an excellent idea of the furnishings necessary for the East Liverpool structure. Their trip will also enable them to figure upon plans that will be improvements over the arrangement at Lawrenceville.

## PROPERTY IN JAPAN

To Be Purchased for M. P. Girls' School—The Church Congress.

The downpour of rain yesterday afternoon and evening had but little perceptible effect upon the missionary convention in the Methodist Protestant church. The devotional meeting was conducted in the morning by Mrs. Belle Fink, of Springdale, Pa., and in the evening by Mrs. James Lee, of Bellevue, Pa.

It was decided at the business session to purchase additional property in Yokohama, Japan, for the girls' school, at a cost of \$9,000. Dr. Lucas preached a strong sermon in the evening. Tonight at 8 o'clock the Rev. Dr. Shaffer, president of the Pittsburg conference, will preach.

## SLEPT IN THE COOLER.

East End Man Arrested But Released This Morning.

Stockdale Smith was arrested by Officer Spence yesterday afternoon and given a ride to town in the patrol. He had a little more than he could carry and had settled down on the railroad bank just below Mulberry street crossing. He slept in the cooler last night. Smith had no money and the mayor was convinced that it would be useless to keep him in jail, so he was released on his own recognizance this morning.

## COUNTY AND NEIGHBORHOOD.

There is a case of smallpox at Hudson and another at Martin's Ferry.

Alliance police say drunkenness is on the decrease in that town.

Massillon has a haunted house in which it is claimed ghosts walk nightly.

John Frost, a well known contractor stone mason, is dead at Wheeling.

Sebring people are again agitating the project of an electric railway to Alliance.

R. S. Baker, superintendent of Hubbard school, will take charge of the Hubbard Enterprise June 1.

J. T. Campbell, a veteran of the Mexican and Civil wars, is dead at Martin's Ferry, aged 76.

Michael McCormack, an insane man who cut his throat and died in Buffalo, was formerly a resident of Canton.

Employees of the Mahoning electric lines at Youngstown have been given a voluntary wage increase of seven cents an hour.

Smallpox has broken out at Western Reserve academy, and 50 students of that institution are closely quarantined in the dormitories.

Aduella Mueller, the 3-year-old daughter of W. Mueller, painter, 4514 Minerva street, Pittsburg, lies dead at her home, a victim of a patent soothing syrup.

Miss Ida Blanche Davidson, of Clarkson, was to Chicago last week and on Monday was married to Robert M. Stevens, a rich mine owner and politician of Arizona.

The Republican convention at Barnesville nominated R. J. McMillen, of Mead township, for commissioner; Dr. C. C. Cole, of Pease, for coroner; L. L. Scheele, of Martin's Ferry, for clerk of courts.

M. W. Beacom, of Cleveland, has been appointed director of law of Cleveland by Mayor Johnson. Mr. Beacom is a brother of B. D. Beacom, manager of the Stark County Telephone company at Alliance.

### The Best Blood Purifier.

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at Alvin H. Bulger, Druggist's.

We have put in a new department this week; when you want a good trunk, valise or satchel, see THE SURPRISE CLOTHING HOUSE. 264-1

16 pounds granulated sugar, \$1; one sack of flour 50 cents, at Schmidt's Cash Grocery. 264-h

Three cans sliced peaches (in heavy sirup) for 25 cents at Ferguson's. 264-h

### Do You Eat?

The best of everything at Heddles-ton Bros. 264-h

Standard tomatoes, per dozen, 90c; corn, per dozen, 90c; peas, per dozen, 90c, at Schmidt's Cash Grocery. 264-h

Car of fancy Home Grown Potatoes, 50 cents at bushel, at Oysters'. 264-h

## AT THE WEST END

A Petition Being Circulated for a City Bridge Across Carpenter's Run.

A petition is being circulated in the West End which requests the city to build a bridge across Carpenter's run, from Chestnut street to Eighth street. Every one that it has been presented to has signed it, and it is stated that the matter will be brought before council at a very early date, perhaps at the meeting on next Tuesday night.

The residents think they are fairly entitled to this improvement, as much more expensive work is being done for the East End, they say, and improvements not needed near so much are being made in other parts of the city. The grade on Chestnut street is very steep and in muddy weather the street is almost impassable. The bridge would do away with this part of the street and would join the two parts of the suburb with a good highway, in place of the very unsatisfactory roundabout mud road that is now in use.

### CLAY DIGGERS' STRIKE.

It Was For a Cent a Ton And Lasted 36 Hours.

The miners employed in the clay banks at Walker's went out on a strike at noon Wednesday and went back to work in 36 hours afterward, their grievances having all been adjusted. They demanded a raise of a cent a ton and a mule to haul their stuff from the bank. Previously they received 19 cents per ton and had to cart the clay out by hand. Now they get 20 cents a ton and haul the clay out with the mule.

The old clay bank has been opened up and the work is being pushed vigorously.

### Burbick And His Fiddle.

Charles Burbick paid the West End a short visit yesterday. He had his violin with him, but was unable to favor the barber shops with any selections, as the instrument only had three strings. Charles states that his contract to play at the Pittsburg exposition has been broken off, as he couldn't get the amount of money he wanted. He now thinks of opening up a dentist's office in the West End.

### WEST END NEWS NOTES.

The painting of the Jethro bridge was completed today.

Daniel Risen, a laborer who resides on Lisbon road, has gone to Pittsburg in search of employment.

A West End teamster has struck on a novel plan for fattening his horses. He feeds them on self-rising flour and water, with the result, he says, that they are nearly twice as large as when he began a week ago.

HE HAS  
**SORE THROAT**  
And is Gargling With  
**TONSILINE**  
That's one way of using it.  
Take it, gargle it, or spray it. TONSILINE never fails. 25 and 50 cents. All druggists.

### Confiscation in Morocco.

It is a custom in Morocco that all the property of an official reverts at death to the crown. The logic which leads to such a result is simple, for the government argues that all fortunes thus accumulated consist of moneys illegally retained by the authorities. A governor when appointed is probably possessed of no considerable fortune. When he dies, he may be a millionaire. Whence came his wealth? Squeezed most certainly from the tribes under his authority and therefore amassed only by the prerogatives of the position in which the sultan had placed him. It has never struck the Moorish government that these great fortunes might more honorably be returned to the people from whom they were stolen. The result is entire confiscation to the crown, including often such private property as his governor may have been possessed of before his appointment and not seldom, too, of the property of his relatives.

When the mighty fall in Morocco, the crash brings down with them their families, even uncles and cousins and all connected with them, and it is not seldom that the sons of great governors, who have been brought up in the luxury of slaves and horses and retinues of mounted men, have to go begging in the streets.—Blackwood.

## EAST END AFFAIRS.

The Kaylor Meetings And Other Matters of Interest in That Part of the City.

Despite the inclemency of the weather a well-filled house greeted Evangelist Kaylor at the Second U. P. church last night. The music at these meetings is in charge of Prof. Laughlin. On Sunday afternoon the evangelist will deliver a special address to the young men on "Is the Young Man Safe?" The meetings will be continued indefinitely.

Michael Kerr is in Shippingport, Pa., on business.

T. B. Owen is ill with painters' colic at his home on First avenue.

The kilnhands at the Laughlin plant were laid off today on account of a shortage of ware.

Dr. W. E. Mowen took a patient from this city to Cleveland, O., last night, where the patient will undergo a medical examination by specialists.

A. W. Day, who has been visiting during the last week at the home of his son, William R. Day, returned to his home at Corydon, Pa., this morning.

# NEW AERIAL TORPEDO

Wonderful War Weapon Which Was Invented by a Woman Physician.

SHE IS DR. ALSBAU, OF N. Y.

Invention Warmly Praised by Government Experts—Extreme Lightness of Torpedo And Projectile Makes It Easy to Handle And Fire.

A woman—Dr. M. J. Alsbaue, of New York city—is part inventor of a new engine of destruction for use in naval warfare, which she expects will supplant all the torpedoes and projectiles now in use. The device has not yet been tested by any government, but a company capitalized for \$1,000,000, which Dr. Alsbaue has incorporated, is now building a full sized model while negotiating with the navy department for an official trial of the apparatus.

The chief novelty of the device, as claimed by the inventors, says the New York Journal, is that after leaving its projecting mechanism it separates, the main portion continuing on its course under the water while the other section rises to the surface, continues its flight through the air and strikes the target above the water line.

The invention is called the "Just-alsbaue torpedo." Dr. Alsbaue, who is an attractive woman, still young, who has patented several electric devices and who holds diplomas crediting her as a mechanical engineer, said:

"It is my invention of the electrical automatic steering apparatus that has made the torpedo practicable. The original device was invented by Captain Wemyss Just, of Australia, formerly of the British navy. When he was here a year ago, I became interested in the problem he was trying to solve.

"Experts abroad had warmly indorsed his projector, by means of which an extremely light overhead torpedo would be utilized in connection with an under water projectile with a range of four miles and controllable without wires or connections of any kind. Captain Just explained to me his difficulty about insuring the direct course of the torpedo under water.

"Being an electrician, I thought I saw a way out of the difficulty by that means. As is often the case with inventors, the principle of the automatic steering fins, finally perfected, came to me like an inspiration. I adapted to Captain Just's small model a miniature of my steering idea.

"Talking of naval warfare and the blowing to pieces of great battleships," continued Dr. Alsbaue, smiling, "it sounds funny for me to say that our first successful trial of the improved device was made in a bathtub.

"But the results of this and subsequent tests were so encouraging that I had no hesitation in putting my money into the torpedo. I went to Washington and secured patents. I also showed the model to government officials and had the pleasure of hearing them say, 'This dual weapon is superior in all respects to any torpedo now in use.'

Captain Just is not now in this country. Dr. Alsbaue explained the new torpedo in detail. She claims that the extreme lightness of the torpedo and its projector makes it equally effective for use from the deck of a man-of-war, from a torpedo boat or any other light draft vessel, or from a land battery or a fort. The means of propulsion in the projector and the explosive used in the missiles are secrets carefully guarded.

The forward end of the torpedo is adapted to fit in a corresponding socket at the rear end of the false head, or shell, which does its work above the water line of the enemy. The latter part when in place is temporarily locked to the head of the main portion of the torpedo, and when fired the pins holding the false head are automatically depressed, thereby freeing the false head, which is kept in place by friction and water pressure.

The head of the torpedo at a given time in its flight, separating itself from the main body, strikes the enemy's ship above the water line. Both of the projectiles will surely reach home, as the torpedo proper, by liberating compressed air through the discharge orifices to the ejectors, forms a hydraulic jet which impinges against the water.

Hitherto it has been necessary where such weapons have been used to employ them in close proximity to some base of operation, from which source the firing agent was obtainable by making metallic or other connections.

The power employed is the progressive explosion of a number of miniature cartridges, which ignite a mixed petroleum and compressed air spray.

The faster the torpedo goes the more rapidly will these cartridges be exploded. The petroleum spray, under pressure being ignited electrically, the power throughout becomes a cumulative one.

In the central section of the main body is a centerboard pivoted at the

forward end, that may be swung up within the body or dropped down automatically to assist maintenance of equilibrium and regulate the course of the torpedo while in operation.

The depth to which the torpedo attains is regulated by two side wings secured adjustably at the outside of the shell of the rear or tail portion, which can be set at any desired angle, according to the extent to which it is desired to have the torpedo enter the water.

"In the event of the projectiles missing their mark," said Dr. Alsbaue, "there is no danger of their becoming a floating menace afterward, as is an objection to some torpedoes. Within half an hour they will explode through the dissolving of a gelatin coating and the resulting chemical change."

# D. M. OGILVIE & CO.

# NEW AERIAL TORPEDO

Wonderful War Weapon Which Was Invented by a Woman Physician.

SHE IS DR. ALSBAU, OF N. Y.

Invention Warmly Praised by Government Experts—Extreme Lightness of Torpedo And Projectile Makes It Easy to Handle And Fire.

A woman—Dr. M. J. Alsbaue, of New York city—is part inventor of a new engine of destruction for use in naval warfare, which she expects will supplant all the torpedoes and projectiles now in use. The device has not yet been tested by any government, but a company capitalized for \$1,000,000, which Dr. Alsbaue has incorporated, is now building a full sized model while negotiating with the navy department for an official trial of the apparatus.

The chief novelty of the device, as claimed by the inventors, says the New York Journal, is that after leaving its projecting mechanism it separates, the main portion continuing on its course under the water while the other section rises to the surface, continues its flight through the air and strikes the target above the water line.

The invention is called the "Just-Alsbaue torpedo." Dr. Alsbaue, who is an attractive woman, still young, who has patented several electric devices and who holds diplomas crediting her as a mechanical engineer, said:

"It is my invention of the electrical automatic steering apparatus that has made the torpedo practicable. The original device was invented by Captain Wemyss Just, of Australia, formerly of the British navy. When he was here a year ago, I became interested in the problem he was trying to solve.

"Experts abroad had warmly indorsed his projector, by means of which an extremely light overhead torpedo would be utilized in connection with an under water projectile with a range of four miles and controllable without wires or connections of any kind. Captain Just explained to me his difficulty about insuring the direct course of the torpedo under water.

"Being an electrician, I thought I saw a way out of the difficulty by that means. As is often the case with inventors, the principle of the automatic steering fins, finally perfected, came to me like an inspiration. I adapted to Captain Just's small model a miniature of my steering idea.

"Talking of naval warfare and the blowing to pieces of great battleships," continued Dr. Alsbaue, smiling, "it sounds funny for me to say that our first successful trial of the improved device was made in a bathtub.

"But the results of this and subsequent tests were so encouraging that I had no hesitation in putting my money into the torpedo. I went to Washington and secured patents. I also showed the model to government officials and had the pleasure of hearing them say, 'This dual weapon is superior in all respects to any torpedo now in use.'

Captain Just is not now in this country. Dr. Alsbaue explained the new torpedo in detail. She claims that the extreme lightness of the torpedo and its projector makes it equally effective for use from the deck of a man-of-war, from a torpedo boat or any other light draft vessel, or from a land battery or a fort. The means of propulsion in the projector and the explosive used in the missiles are secrets carefully guarded.

The forward end of the torpedo is adapted to fit in a corresponding socket at the rear end of the false head, or shell, which does its work above the water line of the enemy. The latter part when in place is temporarily locked to the head of the main portion of the torpedo, and when fired the pins holding the false head are automatically depressed, thereby freeing the false head, which is kept in place by friction and water pressure.

The head of the torpedo at a given time in its flight, separating itself from the main body, strikes the enemy's ship above the water line. Both of the projectiles will surely reach home, as the torpedo proper, by liberating compressed air through the discharge orifices to the ejectors, forms a hydraulic jet which impinges against the water.

Hitherto it has been necessary where such weapons have been used to employ them in close proximity to some base of operation, from which source the firing agent was obtainable by making metallic or other connections.

The power employed is the progressive explosion of a number of miniature cartridges, which ignite a mixed petroleum and compressed air spray.

The faster the torpedo goes the more rapidly will these cartridges be exploded. The petroleum spray, under pressure being ignited electrically, the power throughout becomes a cumulative one.

In the central section of the main body is a centerboard pivoted at the

forward end, that may be swung up within the body or dropped down automatically to assist maintenance of equilibrium and regulate the course of the torpedo while in operation.

The depth to which the torpedo attains is regulated by two side wings secured adjustably at the outside of the shell of the rear or tail portion, which can be set at any desired angle, according to the extent to which it is desired to have the torpedo enter the water.

"In the event of the projectiles missing their mark," said Dr. Alsbaue, "there is no danger of their becoming a floating menace afterward, as is an objection to some torpedoes. Within half an hour they will explode through the dissolving of a gelatin coating and the resulting chemical change."

## THE DEADLY GRADE CROSSING.

According to the statement of a Youngstown paper, the new Sharon & Youngstown Electric Railway company will have a line from Youngstown to Sharon which will not have a single grade crossing. At every point on the line where it is necessary to cross a railroad the crossing is bridged or tunneled.

If the builders of every railroad, whether steam or electric, would follow the example of this Youngstown company, as regards all roads and streets, the business of coroners, as well as the sum of human misery, would be reduced to a surprising extent. When one considers the thousands of accidents that occur annually, all due to the unprotected grade crossing, the wonder is that the people do not rise in their might and put it out of existence. Certainly, if it were known in any community that 50 lives were to be sacrificed if certain work were not performed, even though the cost of the work would be many thousands of dollars, there would be a hasty and earnest effort to raise the necessary money and avert the disaster. Instead of fifty lives taken at one time, the grade crossings in the United States are responsible for the loss of several thousand lives in the course of a year. It is no wonder that the people are awakening to the fact that the sacrifice is needless and are taking measures for the proper protection of human life.

They manage such things better in the old world. Life is not so cheap there as here. A railroad which crosses a highway at grade is a thing almost unknown in the populous districts of England, where, if a man merely steps upon the railroad track at a station, he is liable to arrest and fine.

To abolish the grade crossings wherever possible is the earnest desire of the great railroad companies. In Philadelphia alone the Pennsylvania railroad has spent millions of dollars to carry out that purpose. It will pay the railroad company in the long run, while the public will appreciate the protection afforded from the very start. The old railroads are doing away with the grade crossing where they can. The builders of new roads who wipe it out altogether at the very start are certainly acting upon a wise and humane principle and deserve the encouragement as well as the thanks of the public.

## COMMON-SENSE CLOTHING.

The dictates of fashion are less rigorous than they used to be. A man may dress for comfort, rather than style, and so may a woman, without becoming an object of ridicule. The feminine shirt waist has come to stay. The women wear it and get credit for good sense. Yet all the honor for its introduction is due to men. Not long ago, the males of the big cities resolved that they had sweltered and sweated long enough in conventional suits of heavy clothing. First they removed their vests, during the heated term. Then they removed the starched collars of glaring white and the laundered shirt bosoms that increased

discomfort in hot weather. Next they removed their coats and substituted for them suits that were suitable for the season.

The men who do not now wear a colored shirt rather than a white one is the exception and not the rule. Removal of vest and coat made a change to the colored shirt essential. The women followed the example of the men—perhaps for the first time in their lives—and adopted the shirt waist. They had suffered in silence heretofore. But they learned that there was not necessity for so doing, and that they could be attractive as well as comfortable even in the hot sunshine of June.

Now Uncle Sam has recognized the shirt waist as a sensible hot-weather costume. His hired men may wear it if they desire. Letter carriers need not appear in uniform, but may go without coat and vest, and discharge their duties without perspiring. The world is learning that it wiser to consult comfort rather than fashion.

To raise revenue to meet the extraordinary expenses of the South African war, England has been forced to change its revenue policy and increase its tariff duties in many ways. The huge deficit makes a greater income absolutely necessary. The protection afforded English workingmen as a result may change the established rule of centuries and free trade England may cease to be. Thus, out of evil, good may come.

Says the Crisis: "An oil well will be drilled on the Dick Fraseetincmfwpetaoinp awof Dick Fisher Farm near Fairview within a few days." We sympathize. A correction which does not correct, on a Mergenthaler machine, makes the man who attempts it ridiculous and at once raises a question as to his habits.

There will be no strike of iron workers. Both sides will make concessions. Such is the present outlook, and it is cheering. A strike in this great trade would do irreparable harm to business interests of all sorts.

The nation will remember the Maine on Memorial day. A special reminder of a momentous event will be the launching of the new battleship Maine from Cramps' shipyard.

## OBITUARY

Martin B. Simms.

Word was received in this city this morning of the death of Martin B. Simms at his home in Steubenville after an illness of one week with appendicitis. Mr. Simms was born in this city in 1837 and went to Steubenville in 1863, where he has since resided.

He is survived by his wife, one daughter, Mrs. Charles Kell, of Steubenville, and two brothers, H. L. and J. H. Simms, of this city. They, in company with B. C. Simms, left this morning to attend the funeral, which will be held on Monday afternoon. Interment will be made at Steubenville.

Dr. Langfitt, of Allegheny, went to Steubenville this morning for the purpose of performing an operation at 10 o'clock, but Mr. Simms died at 4.

Mrs. Elizabeth Barnes.

Wellsville, April 19.—Mrs. Elizabeth Barnes died Wednesday. She was born in Shippingport, Pa., in 1814, and lived in that neighborhood most of her life. She is survived by her husband, Levi Barnes, 87 years old, and two sons, M. T. Barnes, of Front street, with whom both have lived since moving here one year ago, and R. W. Barnes, of Freeport, Ill. Mrs. Barnes was a prominent worker in the Presbyterian church for many years. The remains were taken to Shippingport for burial this morning.

County Convention.

The Prohibitionists will meet in county convention in the new Potters' National Bank building Friday night, April 19, for the purpose of electing delegates to the state convention, and to nominate a county ticket. By order of the CHAIRMAN. 263-i

## DICK NOT DISTURBED

Civil Service Reformers After Him for Soliciting Campaign Funds.

Akron, April 19.—The Civil Service Reform association is not satisfied with the finding of the United States circuit court grand jury at Cincinnati relative to the action of General Dick and others of the state Republican executive committee in soliciting campaign funds from federal employees in Ohio in 1899.

A full explanation of the matter was made not long since and it was then stated that Attorney General Olney had given as his decision that the solicitation in the form used by the committee was not illegal. It was upon this decision that its use was based, District Attorney William Bunday, of Cincinnati, brought the matter to the attention of the United States grand jury and it was ignored.

The Reform association now seeks not only to have the matter revived and the executive committee indicted and the executive committeemen indicted at Washington, but also wants Bundy removed from office. The committeemen, including General Dick, are not at all disturbed by the new attack.

## River Stationary This Morning.

The river was stationary this morning at a stage of 13 feet. The rain will soon bring it up again. The Greenwood and Lorena passed up last night, the Ben Hur passed down and the Virginia will go up tonight and the Greenwood will go down. The Frank Gilmore passed down last night with a large tow for southern points.

Both Phones. 265 Broadway.

### Slowest Yet.

"Blitherby's restaurant has the slowest service I ever saw," said the gentleman with the gloomy brow.

"How's that?" asked the individual with the overworked smile.

"I ordered some eggs there once, and I had to wait so long that they brought me—"

"Chickens?"

"No; eggs that had been laid by the chickens hatched from the eggs I had ordered."—Baltimore American.

### The Truth at Last.

"Oh, doctor, is it very dangerous to swallow cement?"

"Very dangerous, indeed."

"And gutta percha, doctor?"

"Very serious."

"And porcelain—oh, doctor, is it very poisonous?"

"Excuse me, madam; have you attempted suicide?"

"No; I've swallowed one of my false teeth."—Pearson's.

### Not Entirely Alone.

As he entered the car he saw at a glance that there was one seat with a young lady in it, and he marched straight down the aisle, deposited his overcoat, sat down and familiarly observed:

"I entirely forgot to ask your permission."

"That's of no consequence," she replied.

"Thanks. Just arrived in the city, I presume," he ventured to remark as he glanced at the bundles and grips on the floor near by.

"Not exactly."

"You're all alone, eh?"

"Almost, but not quite. My husband is the conductor on this car, the motor-man is my cousin and my father and a brother are in the seat back of us."

"Aw! Aw! I see," gasped the man, and the floor of the car suddenly became so redhot that he lit out without another word.—Salt Lake Herald.

## THE DEADLY GRADE CROSSING.

According to the statement of a Youngstown paper, the new Sharon & Youngstown Electric Railway company will have a line from Youngstown to Sharon which will not have a single grade crossing. At every point on the line where it is necessary to cross a railroad the crossing is bridged or tunneled.

If the builders of every railroad, whether steam or electric, would follow the example of this Youngstown company, as regards all roads and streets, the business of coroners, as well as the sum of human misery, would be reduced to a surprising extent. When one considers the thousands of accidents that occur annually, all due to the unprotected grade crossing, the wonder is that the people do not rise in their might and put it out of existence. Certainly, if it were known in any community that 50 lives were to be sacrificed if certain work were not performed, even though the cost of the work would be many thousands of dollars, there would be a hasty and earnest effort to raise the necessary money and avert the disaster. Instead of fifty lives taken at one time, the grade crossings in the United States are responsible for the loss of several thousand lives in the course of a year. It is no wonder that the people are awakening to the fact that the sacrifice is needless and are taking measures for the proper protection of human life.

They manage such things better in the old world. Life is not so cheap there as here. A railroad which crosses a highway at grade is a thing almost unknown in the populous districts of England, where, if a man merely steps upon the railroad track at a station, he is liable to arrest and fine.

To abolish the grade crossings wherever possible is the earnest desire of the great railroad companies. In Philadelphia alone the Pennsylvania railroad has spent millions of dollars to carry out that purpose. It will pay the railroad company in the long run, while the public will appreciate the protection afforded from the very start. The old railroads are doing away with the grade crossing where they can. The builders of new roads who wipe it out altogether at the very start are certainly acting upon a wise and humane principle and deserve the encouragement as well as the thanks of the public.

## COMMON-SENSE CLOTHING.

The dictates of fashion are less rigorous than they used to be. A man may dress for comfort, rather than style, and so may a woman, without becoming an object of ridicule. The feminine shirt waist has come to stay. The women wear it and get credit for good sense. Yet all the honor for its introduction is due to men. Not long ago, the males of the big cities resolved that they had sweltered and sweated long enough in conventional suits of heavy clothing. First they removed their vests, during the heated term. Then they removed the starched collars of glaring white and the laundered shirt bosoms that increased

discomfort in hot weather. Next they removed their coats and substituted for them suits that were suitable for the season.

The men who does not now wear a colored shirt rather than a white one is the exception and not the rule. Removal of vest and coat made a change to the colored shirt essential. The women followed the example of the men—perhaps for the first time in their lives—and adopted the shirt waist. They had suffered in silence heretofore. But they learned that there was not necessity for so doing, and that they could be attractive as well as comfortable even in the hot sunshine of June.

Now Uncle Sam has recognized the shirt waist as a sensible hot-weather costume. His hired men may wear it if they desire. Letter carriers need not appear in uniform, but may go without coat and vest, and discharge their duties without perspiring. The world is learning that it wiser to consult comfort rather than fashion.

To raise revenue to meet the extraordinary expenses of the South African war, England has been forced to change its revenue policy and increase its tariff duties in many ways. The huge deficit makes a greater income absolutely necessary. The protection afforded English workmen as a result may change the established rule of centuries and free trade England may cease to be. Thus, out of evil, good may come.

Says the Crisis: "An oil well will be drilled on the Dick Fraseetaincmfwy-petaoinp awof Dick Fisher Farm near Fairview within a few days." We sympathize. A correction which does not correct, on a Mergenthaler machine, makes the man who attempts it ridiculous and at once raises a question as to his habits.

There will be no strike of iron workers. Both sides will make concessions. Such is the present outlook, and it is cheering. A strike in this great trade would do irreparable harm to business interests of all sorts.

The nation will remember the Maine on Memorial day. A special reminder of a momentous event will be the launching of the new battleship Maine from Cramps' shipyard.

## OBITUARY

Martin B. Simms.

Word was received in this city this morning of the death of Martin B. Simms at his home in Steubenville after an illness of one week with appendicitis. Mr. Simms was born in this city in 1837 and went to Steubenville in 1863, where he has since resided.

He is survived by his wife, one daughter, Mrs. Charles Kell, of Steubenville, and two brothers, H. L. and J. H. Simms, of this city. They, in company with B. C. Simms, left this morning to attend the funeral, which will be held on Monday afternoon. Interment will be made at Steubenville.

Dr. Langfitt, of Allegheny, went to Steubenville this morning for the purpose of performing an operation at 10 o'clock, but Mr. Simms died at 4.

Mrs. Elizabeth Barnes.

Wellsville, April 19.—Mrs. Elizabeth Barnes died Wednesday. She was born in Shippingport, Pa., in 1814, and lived in that neighborhood most of her life. She is survived by her husband, Levi Barnes, 87 years old, and two sons, M. T. Barnes, of Front street, with whom both have lived since moving here one year ago, and R. W. Barnes, of Freeport, Ill. Mrs. Barnes was a prominent worker in the Presbyterian church for many years. The remains were taken to Shippingport for burial this morning.

County Convention.

The Prohibitionists will meet in county convention in the new Potters' National Bank building Friday night, April 19, for the purpose of electing delegates to the state convention, and to nominate a county ticket. By order of the CHAIRMAN.

## DICK NOT DISTURBED

Civil Service Reformers After Him for Soliciting Campaign Funds.

Akron, April 19.—The Civil Service Reform association is not satisfied with the finding of the United States circuit court grand jury at Cincinnati relative to the action of General Dick and others of the state Republican executive committee in soliciting campaign funds from federal employees in Ohio in 1899.

A full explanation of the matter was made not long since and it was then stated that Attorney General Olney had given as his decision that the solicitation in the form used by the committee was not illegal. It was upon this decision that its use was based, District Attorney William Bunday, of Cincinnati, brought the matter to the attention of the United States grand jury and it was ignored.

The Reform association now seeks not only to have the matter revived and the executive committee indicted and the executive committeemen indicted at Washington, but also wants Bundy removed from office. The committeemen, including General Dick, are not at all disturbed by the new attack.

## River Stationary This Morning.

The river was stationary this morning at a stage of 13 feet. The rain will soon bring it up again. The Greenwood and Lorena passed up last night, the Ben Hur passed down and the Virginia will go up tonight and the Greenwood will go down. The Frank Gilmore passed down last night with a large tow for southern points.

# WASHINGTON LETTER

Treating of a Variety of Live Topics at the National Capital.

## FEWER SOLDIERS ARE INSANE

The Malady Due to Fever, Heat And Exhaustion And Not of Long Duration—Uncle Sam's Fine Gun Factory at Washington.

[Special Correspondence.]

There has been of late a marked decrease in the number of insane soldiers received at St. Elizabeth's from the Philippines. The last lot arrived a few days ago and comprised but seven men. Soon after the troops became actively engaged in the islands the institution received at frequent intervals lots composed of 18 or 20 men each, but both the number and frequency of the arrivals have gradually diminished. This has been particularly true in the past two months. The largest number last year came in the summer and autumn.

Dr. A. B. Richardson, the superintendent of the institution, says that there are but 80 soldiers from the Philippines now under his care. These are mostly the residue of those received during the whole time of military operations in the east. They form less than half of the 168 soldiers now left from those received in the Cuban and Philippine operations. The superintendent states that the greater part of the cases received from the east seldom remain at the institution more than a few months. Most of them are in very good condition when they reach this country, owing to the change of environment and the long sea trip, so that few bad cases are received at all. Insanity in the majority of these cases is due to fever, heat and exhaustion, while the rest are more often the result of insanity previous to entering service. Dr. Richardson says that the cases due to fever are many less than in the Cuban campaign, but that the other temporary cases due to heat and exhaustion are more numerous. He considers this hardly surprising in view of the fact that most of the volunteers, unused to hardship and the incidents of army living, are brought into surroundings full of danger and into an entire change of climatic conditions.

### Our Fine Gun Factory.

With the growth of the American navy there has come a vast increase in the means of supplying the equipment of modern warships, and nowhere is this better illustrated than right here in Washington, where is located one of the finest gun factories in the world. The Spanish-American war brought to the attention of those in authority at the navy yard here the necessity of increased facilities for the manufacture of war machinery, and congress has heeded the demand. The men of 20 years ago, when the gunshops at the navy yard were inclosed under four roofs, would hardly recognize the modern factory of today which stands at the foot of Eighth street southeast.

There are now over 30 buildings in the yard, and few of the old structures are standing. The old breech mechanism shop, which until 1890 held the offices of the ordnance department, is soon to be demolished, and a modern building in keeping with the progress of affairs will take its place. At present there remain only the shellhouse, the laboratory and the metal testing house, formerly the old magazine of the early structures. These will probably give way to up to date buildings within the next year or so, and then the equipment of the yard will be complete from a manufacturing standpoint, though there will not be room enough for the output of the establishment.

### He Claims Thirty-Five Cents.

Mr. Frederick E. Rittman, auditor for the war department, receives many queer letters from people who have or think they have claims against the government. One came recently from a man in New York, who stated that he had a civil war claim for 35 cents which he hoped the government would pay, with accrued interest.

In his letter he said that he had formerly presented his claim and that it had been partially settled, but that this amount yet remained unpaid. An investigation of the records disclosed that a number of years ago the New York man had been paid 70 cents as settlement in full of his claim. Mr. Rittman advised him that the records of the department did not show that he was entitled to receive 35 cents and that if he expected to collect he would have to prove his claim.

### Would Leave Team at the Door.

Senators Cullom and Mason, driven by an ancient negro and crowded into an old "night liner" cab, came up Pennsylvania avenue the other afternoon. A friend stopped them at Fourteenth street.

"Whither?" he asked.

"The senators of the imperial state of Illinois are now on their way to

call on the chief executive," Senator Mason replied.

"Hub!" said the friend. "I should think the senators from the imperial state of Illinois should have at least two horses to their conveyance when going on such a distinguished errand."

"It doesn't matter," Senator Cullom put in. "We shall not take the rig into the White House."

Under an order issued by the war department the Porto Rican volunteer regiment will be mustered out of the United States service on or before the 30th of June next and will be reorganized in accordance with a special provision of the act for the reorganization of the army. The statute provides for the organization of a regiment of three battalions, composed entirely of natives of the island of Porto Rico and officered by officers detailed from the regular army of the United States.

Colonel Charles F. Humphrey, who has been chief quartermaster with General Chaffee in China, has been ordered to the Philippines. He will make a tour of the islands, visiting various posts, and return to Manila about June 1 to assume the duties of chief quartermaster in the islands, relieving Major Miller.

CARL SCHOFIELD.

## A LUCKY NUMBER

Was the Number Thirteen for Three Duck Hunters from the Southside.

Ed Messer, Walter Cronin and E. S. Good spent the afternoon yesterday duck hunting down the river. They returned in the evening with thirteen ducks as the result of the afternoon's sport.

They did not seem to be at all unhappy because they got the unlucky number, but were perplexed for some time to hit on a plan by which they could divide thirteen ducks among three men. Finally cuts were drawn with the result that Mercer got the thirteenth duck.

## CHESTER BREVITIES.

Mrs. John Hoskins, of California avenue, is very ill with tonsillitis.

I. Grotzinger is erecting a building in the park in which he will open up a photograph gallery this spring.

J. M. Shuck, who is building the roller coaster at the park, was called to his home at Bedford, Pa., by the serious illness of his mother.

Work at the park was suspended today on account of the inclement weather. Forty Italians who were sodding the railroad banks were also laid off.

## WALKED FROM LISBON.

Engineer Nicholson Took the Short Cut Home.

Wesley Nicholson, a popular engineer of this city, was subpoenaed to Lisbon Wednesday, and as he was unable to get a train for home after 2:30 o'clock he started to foot it, so as to be able to work yesterday morning. He arrived home about 10 o'clock Wednesday evening and the employees of the pottery are now having much fun at his expense, wanting to know if he walked home to save car fare.

## For Those Who Smoke.

The great point in pipe smoking is to learn to smoke slowly. When this habit is acquired, the full flavor of the tobacco will always be enjoyed, every smoke will be a cool one, and tongue burning will be unknown. It is, however, very hard for nervous people to smoke slowly. We know of cases where smokers have tried for a score of years to check their smoking speed without success. They probably did not begin to make the effort early enough in their smoking careers. With good tobacco and a root pipe the slow smoker attains a degree of pleasurable enjoyment in smoking of which the rapid smoker has not an inkling.

Perhaps all smokers do not know that it makes no difference in the flavor of pipe tobacco how many times a pipe goes out. A cigar which is allowed to go out once has its flavor ruined and is most appreciably termed a butt. A pipe, however, tastes, if anything, better for going out.

Pastidious smokers always have at least two pipes at hand and never fill one until it has entirely cooled off. This is a help toward cool smoking and reasonable life in a pipe. A good test by which to tell if you are smoking too fast is to hold the bowl in your hand. If it is too hot to do so, then you may know your speed is too great.

—Exchange.

## Fixed It.

Mamma—Now, Freddy, mind what I say. I don't want you to go over into the next garden to play with that Binks boy. He's very rude.

Freddy (heard a few minutes afterward calling over the wall)—I say, Binks, ma says I'm not to go in your garden because you're rude, but you come into my garden—I ain't rude.

# Swell Suits

NEED NOT BE TAILOR MADE

OUR HIGH GRADE ready-to-wear Suits, we are showing are attracting buyers to our store. Have you seen our late arrivals of Summer Flannels and Unfinished Wors-ted Suits. ## Boy's Three Piece Suits

Coat, vest and knee pants, size 10 to 16 years. We have them in, prices ranging from **\$4 to \$7.**

# Hats

Your Hat ought to be the most stylish there is to be had. We show the correct styles. Notice our show window and you will be pleased with our line of **SOFT AND STIFF HATS** that sell for **\$1 \$1.48 \$1.98 \$2.48 \$3**

Ladies'

Knox

Sailor

Hats

We have the exclusive sale of Knox's Hats in our city in ladies' and men's wear.

## To the Ladies of East Liverpool:

We take pleasure in announcing that we have this season added the Knox Sailor and Walking Hat and will be pleased to show you the style for the coming season.

# Joseph Bros.

## DOCTOR VINDICATED

State Medical Board Dismisses Charges Against Hemphill, of Irondale.

Columbus, April 19.—(Special.)—The state medical board of registration and examination yesterday afternoon dismissed the charges brought against Dr. S. W. Hemphill, of Irondale, to revoke his certificate as a practitioner. About a year ago other physicians preferred charges against him, accusing him of unprofessional conduct and of neglect of a physician's duties.

## FOUR WERE HELD

For the Murder of Kahney And Fitzgerald at Pittsburg.

Pittsburg, April 19.—The coroner's jury held Edward and John Biddle alias Wright, and Jessie Biddle and Walter Dorman responsible for the murder of Grocer Kahney and Detective Fitzgerald and recommended that they be held for the grand jury. Mrs. Mae Smith, at whose house Fitzgerald was killed, testified, but told nothing new.

## SEBRING-SALEM LINE

Every Prospect of the Electric Railway Project Being Carried Out.

Advices from Salem state there is every prospect of the Alliance, Sebring and Salem electric railway being pushed. It is stated positively that work will begin soon and be carried to completion.

## BILL OF THE PLAY.

Mamie Gilroy is to star in "My Sweetheart."

A new play of London detective life is called "From Scotland Yard."

Mascagni may tour America next season, heading an opera company.

Mrs. Langtry's daughter may have a small part in a play to be produced by the Lily.

Blanche Walsh, according to her manager, has had the most successful season during her career as a star.

Henry E. Dixey, now in vaudeville, may play Young Marlowe in Stuart Robson's revival of "She Stoops to Conquer."

Plans for taking "Ben-Hur" to England have about been completed. The production will be the biggest ever taken across the Atlantic.

Gounod's "Faust" brought \$145,840 to the Paris opera last year through its 40 performances, twice as many as any other single opera enjoyed.

The earliest of American novels to be turned into a drama was Harriet Beecher Stowe's "Uncle Tom's Cabin." That was done almost half a century ago.

A woman composer of opera seems to have arisen, and this rare creature is of all nationalities the most unexpected, an English woman, and her name is Smyth.

Cecil Raleigh's melodrama, "The Price of Peace," which is being produced in New York, is a four act play with a cast of 32 principals, but embracing altogether 68 speaking parts. It is in 18 scenes.

There are two methods of producing queens, artificial and natural. Artificial queens are those raised from cells produced by the bees at the will of the apiarist. Natural queens are those raised by the bees.

## Barbers of Spain.

The barber's business in Spain is peculiar in that he is called upon to ply his shears on donkeys as well as men, for it is an important item in the care of Spanish donkeys that they should be sheared as to the back in order to make a smoother resting place for man or pannier. So, while the master held his animal, one of the barbers plied some enormous clacking shears and littered the ground with mouse colored hair, leaving the beast's belly fur covered below a fixed line and for a small additional price executing a raised pattern of star points around the neck.

The tonsorial profession is an indispensable one in a country where shaving the whole face is generally practiced among all the humbler orders, not to mention toreros and ecclesiastics. But the discomfort to which the barber's customers submit is astonishing. Instead of being pampered, soothed, labored at with confidential respectfulness and lulled into luxurious harmony with himself, as happens in America, a man who courts the razor in Spain has to sit upright in a stiff chair and meekly hold under his chin a brass basin full of suds and fitting his throat by means of a curved nick at one side.

## Babies in Greenland.

The bed of the baby Eskimo is not always one of eider down. There are times of famine now and then when the condition of the ice makes hunting impossible, and old and young starve to death. Cases have been known on both shores of Baffin bay where babies have been eaten by starving adults, but infanticide in Greenland is unknown because of a belief that the spirit of a murdered infant turns into an evil spirit called Angiak, that forever haunts the entire village and brings endless misery and distress.

When a friend is in trouble, don't ask, "Can I do anything?" Do something.—Atchison Globe.

### Our Fine Gun Factory.

With the growth of the American navy there has come a vast increase in the means of supplying the equipment of modern warships, and nowhere is this better illustrated than right here in Washington, where is located one of the finest gun factories in the world. The Spanish-American war brought to the attention of those in authority at the navy yard here the necessity of increased facilities for the manufacture of war machinery, and congress has heeded the demand. The men of 20 years ago, when the gun-shops at the navy yard were inclosed under four roofs, would hardly recognize the modern factory of today which stands at the foot of Eighth street southeast.

There are now over 30 buildings in the yard, and few of the old structures are standing. The old breech mechanism shop, which until 1890 held the offices of the ordnance department, is soon to be demolished, and a modern building in keeping with the progress of affairs will take its place. At present there remain only the shellhouse, the laboratory and the metal testing house, formerly the old magazine of the early structures. These will probably give way to up to date buildings within the next year or so, and then the equipment of the yard will be complete from a manufacturing standpoint, though there will not be room enough for the output of the establishment.

### He Claims Thirty-five Cents.

Mr. Frederick E. Rittman, auditor for the war department, receives many queer letters from people who have or think they have claims against the government. One came recently from a man in New York, who stated that he had a civil war claim for 35 cents which he hoped the government would pay, with accrued interest.

In his letter he said that he had formerly presented his claim and that it had been partially settled, but that this amount yet remained unpaid. An investigation of the records disclosed that a number of years ago the New York man had been paid 70 cents as settlement in full of his claim. Mr. Rittman advised him that the records of the department did not show that he was entitled to receive 35 cents and that if he expected to collect he would have to prove his claim.

**Would Leave Team at the Door.** Senators Cullom and Mason, driven by an ancient negro and crowded into an old "night liner" cab, came up Pennsylvania avenue the other afternoon. A friend stopped them at Fourteenth street.

"Whither?" he asked. "The senators of the imperial state of Illinois are now on their way to

call on the chief executive," Senator Mason replied.

"Hub!" said the friend. "I should think the senators from the imperial state of Illinois should have at least two horses to their conveyance when going on such a distinguished errand."

"It doesn't matter," Senator Cullom put in. "We shall not take the rig into the White House."

Under an order issued by the war department the Porto Rican volunteer regiment will be mustered out of the United States service on or before the 30th of June next and will be reorganized in accordance with a special provision of the act for the reorganization of the army. The statute provides for the organization of a regiment of three battalions, composed entirely of natives of the island of Porto Rico and officered by officers detailed from the regular army of the United States.

Colonel Charles F. Humphrey, who has been chief quartermaster with General Chaffee in China, has been ordered to the Philippines. He will make a tour of the islands, visiting various posts, and return to Manila about June 1 to assume the duties of chief quartermaster in the islands, relieving Major Miller.

CARL SCHOFIELD.

## A LUCKY NUMBER

Was the Number Thirteen for Three Duck Hunters from the Southside.

Ed Messer, Walter Cronin and E. S. Good spent the afternoon yesterday duck hunting down the river. They returned in the evening with thirteen ducks as the result of the afternoon's sport.

They did not seem to be at all unhappy because they got the unlucky number, but were perplexed for some time to hit on a plan by which they could divide thirteen ducks among three men. Finally cuts were drawn with the result that Mercer got the thirteenth duck.

### CHESTER BREVITIES.

Mrs. John Hoskins, of California avenue, is very ill with tonsillitis.

I. Grotzinger is erecting a building in the park in which he will open up a photograph gallery this spring.

J. M. Shuck, who is building the roller coaster at the park, was called to his home at Bedford, Pa., by the serious illness of his mother.

Work at the park was suspended today on account of the inclement weather. Forty Italians who were sodding the railroad banks were also laid off.

### WALKED FROM LISBON.

Engineer Nicholson Took the Short Cut Home.

Wesley Nicholson, a popular engineer of this city, was subpoenaed to Lisbon Wednesday, and as he was unable to get a train for home after 2:30 o'clock he started to foot it, so as to be able to work yesterday morning. He arrived home about 10 o'clock Wednesday evening and the employees of the pottery are now having much fun at his expense, wanting to know if he walked home to save car fare.

### For Those Who Smoke.

The great point in pipe smoking is to learn to smoke slowly. When this habit is acquired, the full flavor of the tobacco will always be enjoyed, every smoke will be a cool one, and tongue burning will be unknown. It is, however, very hard for nervous people to smoke slowly. We know of cases where smokers have tried for a score of years to check their smoking speed without success. They probably did not begin to make the effort early enough in their smoking careers. With good tobacco and a root pipe the slow smoker attains a degree of pleasurable enjoyment in smoking of which the rapid smoker has not an inkling.

Perhaps all smokers do not know that it makes no difference in the flavor of pipe tobacco how many times a pipe goes out. A cigar which is allowed to go out once has its flavor ruined and is most appreciably termed a butt. A pipe, however, tastes, if anything, better for going out.

Fastidious smokers always have at least two pipes at hand and never fill one until it has entirely cooled off. This is a help toward cool smoking and reasonable life in a pipe. A good test by which to tell if you are smoking too fast is to hold the bowl in your hand. If it is too hot to do so, then you may know your speed is too great.

—Exchange.

### Fixed It.

Mamma—Now, Freddy, mind what I say. I don't want you to go over into the next garden to play with that Binks boy. He's very rude.

Freddy (heard a few minutes afterward calling over the wall)—I say, Binks, ma says I'm not to go in your garden because you're rude, but you come into my garden—I ain't rude.

# Swell Suits

NEED NOT BE TAILOR MADE

OUR HIGH GRADE ready-to-wear Suits, we are showing are attracting buyers to our store. Have you seen our late arrivals of Summer Flannels and Unfinished Worsteds Suits. These goods are considerable lower than Tailors ask for same style of goods. Our prices for these Suits are from

**\$10.00 to \$16.00.**

To the Ladies of East Liverpool:

We take pleasure in announcing that we have this season added the Knox Sailor and Walking Hat and will be pleased to show you the style for the coming season.

# Joseph Bros.

## DOCTOR VINDICATED

State Medical Board Dismisses Charges Against Hemphill, of Irondale.

Columbus, April 19.—(Special.)—The state medical board of registration and examination yesterday afternoon dismissed the charges brought against Dr. S. W. Hemphill, of Irondale, to revoke his certificate as a practitioner. About a year ago other physicians preferred charges against him, accusing him of unprofessional conduct and of neglect of a physician's duties.

## FOUR WERE HELD

For the Murder of Kahney And Fitzgerald at Pittsburg.

Pittsburg, April 19.—The coroner's jury held Edward and John Biddle alias Wright, and Jessie Biddle and Walter Dorman responsible for the murder of Groger Kahner and Detective Fitzgerald and recommended that they be held for the grand jury. Mrs. Mae Smith, at whose house Fitzgerald was killed, testified, but told nothing new.

## SEBRING-SALEM LINE

Every Prospect of the Electric Railway Project Being Carried Out.

Advices from Salem state there is every prospect of the Alliance, Sebring and Salem electric railway being pushed. It is stated positively that work will begin soon and be carried to completion.

## BILL OF THE PLAY.

Mamie Gilroy is to star in "My Sweetheart."

A new play of London detective life is called "From Scotland Yard."

Mascagni may tour America next season, heading an opera company.

Mrs. Langtry's daughter may have a small part in a play to be produced by the Lily.

Blanche Walsh, according to her manager, has had the most successful season during her career as a star.

Henry E. Dixey, now in vaudeville, may play Young Marlowe in Stuart Robson's revival of "She Stoops to Conquer."

Plans for taking "Ben-Hur" to England have about been completed. The production will be the biggest ever taken across the Atlantic.

Gounod's "Faust" brought \$145,840 to the Paris opera last year through its 40 performances, twice as many as any other single opera enjoyed.

The earliest of American novels to be turned into a drama was Harriet Beecher Stowe's "Uncle Tom's Cabin." That was done almost half a century ago.

A woman composer of opera seems to have arisen, and this rare creature is of all nationalities the most unexpected, an English woman, and her name is Smyth.

Cecil Raleigh's melodrama, "The Price of Peace," which is being produced in New York, is a four act play with a cast of 32 principals, but embracing altogether 68 speaking parts. It is in 18 scenes.

There are two methods of producing queens, artificial and natural. Artificial queens are those raised from cells produced by the bees at the will of the apiarist. Natural queens are those raised by the bees.

### Barbers of Spain.

The barber's business in Spain is peculiar in that he is called upon to ply his shears on donkeys as well as men, for it is an important item in the care of Spanish donkeys that they should be sheared as to the back in order to make a smoother resting place for man or pannier. So, while the master held his animal, one of the barbers plied some enormous clacking shears and littered the ground with mouse colored hair, leaving the beast's belly fur covered below a fixed line and for a small additional price executing a raised pattern of star points around the neck.

The tonsorial profession is an indispensable one in a country where shaving the whole face is generally practiced among all the humbler orders, not to mention toreros and ecclesiastics. But the discomfort to which the barber's customers submit is astonishing. Instead of being pampered, soothed, labored at with confidential respectfulness and lulled into luxurious harmony with himself, as happens in America, a man who courts the razor in Spain has to sit upright in a stiff chair and meekly hold under his chin a brass basin full of suds and fitting his throat by means of a curved nick at one side.

### Babies in Greenland.

The bed of the baby Eskimo is not always one of elder down. There are times of famine now and then when the condition of the ice makes hunting impossible, and old and young starve to death. Cases have been known on both shores of Baffin bay where babies have been eaten by starving adults, but infanticide in Greenland is unknown because of a belief that the spirit of a murdered infant turns into an evil spirit called Angiak that forever haunts the entire village and brings endless misery and distress.

When a friend is in trouble, don't ask, "Can I do anything?" Do something.—Acheson Globe.

## OLD SAM HOUSTON

The Most Picturesque Figure of  
His Time In the U. S.  
Senate.

## CLAD IN INDIAN BLANKET

Busied Himself in Whittling Pine Sticks—His Quitclaim Deed to One Hundred And Sixty Acres of Land.

General Sam Houston of Texas was the most picturesque figure in the senate during my first years of service at the capitol. Like Benton, he was very fond of young men and soon came to count me as "one of his boys." Only those who were youngsters in the forties can realize the interest people felt in Houston in the days when his part in the struggle for the independence of Texas was still fresh in the public mind. Visitors to the senate chamber invariably asked to have him pointed out to them, and they were never disappointed in their hero, for he was large of frame, of stately carriage and dignified demeanor and had a lionlike countenance.

Always unconventional in dress, he would now and then appear at the capitol wearing a vast and showy sombrero and a Mexican blanket, a sort of ornamental bedquilt with a slit in the middle through which the wearer's head was thrust, leaving the blanket to hang in folds around the body. His principal employment in the senate was whittling pine sticks, of which he seemed to have an unlimited supply. It was only at rare intervals that he broke silence, but when he did speak he always proved himself capable of contributing his quota of sound and patriotic advice to the deliberations of the senate.

No passage in Houston's career was nobler than the heroic stand against disunion which marked its close, while of his kindness of nature and generous helpfulness to those in distress one could recall stories sufficient to fill a volume.

Near Quincy, Ills., there was a stretch of country known as the "Indian tract," to which Houston held title, a fact many of the settlers thereon, a careless pioneer brood, failed to search out. One of them called upon William A. Richardson, long member of the house from the Quincy district and subsequently a senator from his state, and asked if he knew Houston. Richardson said he did, whereupon his visitor confided to him that he had inadvertently settled upon 160 acres of Houston's land and that all he was worth stood in improvements on it. He wanted Richardson to see Houston and make the best terms that he could. Richardson upon his return to Washington told Houston the story and asked what he would take for a quitclaim deed to the 160 acres.

"What sort of a man is this constituent of yours who has blundered upon my land?" asked Houston.

"A good, square, honest man," was the reply.

"When I turn him off my land, I reckon he and his family will be beggars?"

Richardson nodded.

"What's this farm worth now?" asked Houston.

"Improvements and all about \$6,000," was the response.

"What was the bare place worth when you fellows went on it?" queried Houston.

"About \$5 an acre; \$800 in all," answered Richardson.

"Good fellow, this man of yours, Richardson?" this after a moment's thought.

"Best in the world," said Richardson. "Tell him to send me \$800, and I'll make him a deed."

In due time the \$800 reached Washington in the shape of a New York draft. Richardson sought Houston, who, having executed a deed, took the draft and indorsed it.

"You say this man of yours is a good fellow?" he asked thoughtfully.

"Couldn't be a better one," was the emphatic answer.

"Send him back this draft and tell him Sam Houston has changed his mind. What can you buy a good saddle horse for out in that country?" He was told that \$200 would do it. "Well, then," said Houston, "write to your friend and tell him to buy a first class saddle horse about 4 years old and keep him for me. When congress adjourns, I will go home with you and ride the horse down to Texas."

Without delay the man in Illinois received back his draft and bought a saddle horse, the best he could find. Just before adjournment Houston sought Richardson. "You say the fellow who's got my horse is a tiptop good man?" Richardson again declared him one of the best in his district. "Well," said Houston, with a sigh, "I should have liked first rate to see him and also my horse, but as affairs turn out I must go straight to Texas. When you get home, go over and see this man and tell him

## OLD SAM HOUSTON

The Most Picturesque Figure of  
His Time In the U. S.  
Senate.

## CLAD IN INDIAN BLANKET

Busied Himself in Whittling Pine  
Sticks—His Quitclaim Deed to  
One Hundred And Sixty Acres of  
Land.

General Sam Houston of Texas was  
the most picturesque figure in the sen-  
ate during my first years of service at  
the capitol. Like Benton, he was very  
fond of young men and soon came to  
count me as "one of his boys." Only  
those who were youngsters in the fort-  
ies can realize the interest people felt  
in Houston in the days when his part  
in the struggle for the independence of  
Texas was still fresh in the public  
mind. Visitors to the senate chamber  
invariably asked to have him pointed  
out to them, and they were never dis-  
appointed in their hero, for he was  
large of frame, of stately carriage and  
dignified demeanor and had a lionlike  
countenance.

Always unconventional in dress, he  
would now and then appear at the cap-  
itol wearing a vast and showy sombre-  
ro and a Mexican blanket, a sort of or-  
namental bedquilt with a slit in the  
middle through which the wearer's  
head was thrust, leaving the blanket to  
hang in folds around the body. His  
principal employment in the senate  
was whittling pine sticks, of which he  
seemed to have an unlimited supply. It  
was only at rare intervals that he  
broke silence, but when he did speak  
he always proved himself capable of  
contributing his quota of sound and  
patriotic advice to the deliberations of  
the senate.

No passage in Houston's career was  
nobler than the heroic stand against  
disunion which marked its close, while  
of his kindness of nature and gener-  
ous helpfulness to those in distress one  
could recall stories sufficient to fill a  
volume.

Near Quincy, Ill., there was a  
stretch of country known as the "In-  
dian tract," to which Houston held ti-  
tle, a fact many of the settlers thereon,  
a careless pioneer brood, failed to  
search out. One of them called upon  
William A. Richardson, long member  
of the house from the Quincy district  
and subsequently a senator from his  
state, and asked if he knew Houston.  
Richardson said he did, whereupon his  
visitor confided to him that he had in-  
advertently settled upon 160 acres of  
Houston's land and that all he was  
worth stood in improvements on it. He  
wanted Richardson to see Houston and  
make the best terms that he could.  
Richardson upon his return to Wash-  
ington told Houston the story and asked  
what he would take for a quitclaim  
deed to the 160 acres.

"What sort of a man is this constitu-  
ent of yours who has blundered upon  
my land?" asked Houston.

"A good, square, honest man," was  
the reply.

"When I turn him off my land, I  
reckon he and his family will be beg-  
gars?"

Richardson nodded.

"What's this farm worth now?" asked  
Houston.

"Improvements and all about \$6,000,"  
was the response.

"What was the bare place worth  
when you fellows went on it?" queried  
Houston.

"About \$5 an acre; \$800 in all," an-  
swered Richardson.

"Good fellow, this man of yours,  
Richardson?" this after a moment's  
thought.

"Best in the world," said Richardson.  
"Tell him to send me \$800, and I'll  
make him a deed."

In due time the \$800 reached Wash-  
ington in the shape of a New York  
draft. Richardson sought Houston,  
who, having executed a deed, took the  
draft and indorsed it.

"You say this man of yours is a good  
fellow?" he asked thoughtfully.

"Couldn't be a better one," was the  
emphatic answer.

"Send him back this draft and tell  
him Sam Houston has changed his  
mind. What can you buy a good sad-  
dle horse for out in that country?" He  
was told that \$200 would do it. "Well,  
then," said Houston, "write to your  
friend and tell him to buy a first class  
saddle horse about 4 years old and  
keep him for me. When congress ad-  
journs, I will go home with you and  
ride the horse down to Texas."

Without delay the man in Illinois re-  
ceived back his draft and bought a sad-  
dle horse, the best he could find. Just  
before adjournment Houston sought  
Richardson. "You say the fellow who's  
got my horse is a tiptop good man?"  
Richardson again declared him one of  
the best in his district. "Well," said  
Houston, with a sigh, "I should have  
liked first rate to see him and also my  
horse, but as affairs turn out I must go  
straight to Texas. When you get home,  
go over and see this man and tell him

we are asking if you took them by force. We  
consider (and so will you after seeing it) our  
KILNMAN'S SHOE the best Shoe Value ever  
offered in East Liverpool at the price, **\$2.50.**

# NAPOLEON'S WISDOM

The Great General Understood the Value and Importance of Discussion.

IT IS HELPFUL IN MANY WAYS

It Does for the Brain—What Exercise Does for the Muscles—The Mighty Corsican's Ideas on Religion And the First Great Cause.

Man exercises his muscles to improve them. He competes muscularly with his fellows, and rivalry of muscle ends in muscular improvement all around.

What exercise does for the muscles discussion does for the brain.

The importance of discussion Napoleon appreciated thoroughly.

And when he discussed, he discussed like a big man, selecting questions to exhaust the mind and lead far away into fields of conjecture and widest speculation.

His was no dreamer's brain, giving to speculation the time needed for doing. First came the real work of the day or hour—the planning and finishing of details, from the disposing of army corps to the smallest final arrangements.

Then, free from actual work, seeking relief from concentrated application, his brain sought rest in talk worth while.

On his voyage to Egypt, determined to waste no time, he organized serious discussion as methodically as he ever organized a fighting plan.

The discussions were regularly appointed affairs.

Needless to say, Napoleon arranged everything and controlled everything.

He selected the subject for discussion, he chose the three or four on each side to support and oppose any given proposition.

These were his favorite topics: First, the art of war; second, the art of government; third, religion.

From his point of view his chief subjects for discussion were admirably chosen. They represented the only two things he cared for here below and the final question affecting his fate hereafter.

But his field of thought, like the scope of his ambition, was unlimited.

Once he asked his chosen debaters to decide whether the planets are inhabited.

Again, he discussed this earth's probable ending, by fire or water.

He discussed also the meaning of dreams and the value of "presentiments."

In practical life he discarded everything save realities, but in discussion all abstract questions interested him.

It may interest you to know that in general he denied positively the existence of hell—perhaps that was caution on his part—and maintained that no man should die without confessing his sins.

"Only a fool says that he will die without a confessor. There is so much we do not know and that we cannot explain."

It is deeply characteristic of Napoleon's thought that he should have declared for Mohammedanism in preference to Christianity.

He admired the religion of Mohammed "because it conquered one-half the world in ten years, whereas it took 300 years for Christianity to establish itself."

The old French king became converted because he thought the Christian God beat his pagan god in battle. Napoleon had not traveled far beyond that old king.

The man who seeks for all sorts of wisdom in Napoleon will be deeply disappointed when he comes to analyze the great fighter's religious thought.

But for the hero worshiper there is comfort in this:

Napoleon trifled with everything except the first great cause.

On the deck of his ship on a fine night there was much irreverent, flip-sant, materialistic chatter. The revolution had made stupid atheism fashionable.

But Napoleon was impressed by the

calm night, the blue, dark water and the silent, beautiful stars shining down in cosmic rebuke of the tiny blasphemers below.

He stopped very abruptly the prattle of atheism.

Toward the stars he pointed the short, thick arm so soon to rule this little planet.

"You may talk as long as you please, gentlemen, but who made all that?"

There was no answer, and there was no more atheism that night.

The man who was to build up the code Napoleon could appreciate the force and necessity of law. His mind realized the feebleness of man, coping even with little problems of earth.

He felt that great laws and a Great Lawgiver must swing and direct those millions of silent worlds above.

When Napoleon was still a Corsican patriot, the great Paoli said to him:

"Napoleon, you are not a modern. You talk like the heroes of Plutarch."

Earnestness of the old kind was indeed Napoleon's characteristic—as emperor, planning to rule Asia from the back of an ornamented elephant, or as a poor, half starved lad, taking off his muddy shoes to enter the presence of the matronly Mme. Permon and listening to her stories of descent from the emperors of Constantinople.

Napoleon in his hours of work was a doer, and in his hours of leisure he was a discussor.

He exercised constantly the two sides of his brain, the practical and speculative.

Do the same and succeed.—New York Journal.

## To Spell Shakespeare's Name.

It has been shown that Shakespeare's name has been spelled by responsible writers in 1,906 different ways. In his own time his contemporaries spelled his name in 32 different ways.—Chicago Times-Herald.

## STRIKING THE RIGHT SPOT.

That's the Great Secret of East Liverpool Praise Given to Dr. A. W. Chase's Nerve Pills.

There come times to every life when a lack of strength—failing appetite—poor circulation—weak heart action and many other symptoms may break in. They are not diseases—the person may not be laid up until they have existed a long time. The influence of Dr. A. W. Chase's Nerve Pills is to create nerve force, and immediately people find themselves getting well because nerve force controls every vital organ of the body.

Mr. W. S. Gaston, of No. 264 Fifth street, East Liverpool, O., says: "Owing to a functional or nervous trouble and an impaired digestion my heart action was weak and irregular. The condition was far from pleasant and I was induced to get a box of Dr. A. W. Chase's Nerve Pills at Larkins' drug store, corner Sixth and East Market streets. I am pleased that I did so, as the medicine has so strengthened the nervous system and digestion that the heart action is regular and strong and feel otherwise well and generally pleased with the result."

Dr. A. W. Chase's Nerve pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medical company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

Clear the complexion of all impurities by using a Face Mask. For sale by Chas. F. Craig, druggist. 261-r

# Carpets

Are engaging the attention of the average housewife just now.

In buying Carpets, either Brussels or Ingrains,

You do not want to experiment on untried and inferior makes. You want something that has been tried and found not wanting, such makes as the

Hartfords and Lowells

We carry these reliable makes and you are always safe in buying them.

## For Anything in Furniture

Everything for any room in the house, you can best suit yourself at

FRANK CROOK'S

## Disappointed the Farmer.

"That city man that was visiting me is an overrated cuss," remarked the farmer.

"How so?"

"Oh, the papers all said he was a great hand at watering stock, but I found he couldn't work the pump five minutes without laming his arm."—Chicago Post.

## Ah!

He—Cissie, I've heard it said that a kiss without a mustache is like an egg without salt. Is that so?

She—Well, really, I don't know. I can't tell, for, you see, I've never—

He—Ah, now!

She—Never eaten an egg without salt.—Glasgow Times.

## Japanese Story Tellers.

Professional story tellers roam from house to house in Japan to spin their yarns. In the city of Tokyo there are about 600 of these professional romancers. Their pay averages 20 cents an hour. When the story teller discovers that his romances are becoming dull from frequent repetition, he moves into a new district.

In the fourteenth century the slaughter of women and children after a town or castle had been taken by storm was one of the most common occurrences of war.

The first Rhine steamer made its trips from Rotterdam to Cologne in 1816.

## There is Satisfaction

In a perfect Photo—the kind you get at Spencer's. Here is an offer old customer's will appreciate and new ones will take advantage of.

\$5 Cabinet Photos for \$3 a Dozen.

I have in stock card-mounts bearing the imprint of the old firm. I want to use them up. The offer holds good only till they are gone. The work will be of the usual high standard, the best \$5 cabinets ever made in the city. Satisfaction guaranteed. Come early to the Studio in the First National Bank Building.

R. E. Spencer.

YOUR WIFE FINDS IT CONVENIENT TO PAY THE GROCER THE BUTCHER AND BAKER BY CHECK

One of the many conveniences derived from having a Bank Account is the payment of all bills by check, thus relieving your mind of the necessity for carrying large and unnecessary sums around with you and always be obliged to make exact change. This is particularly advantageous to housekeepers as it is a preventative against petty mistakes in dealing with the small tradesmen.

### Why He Was Deaf.

Scene: Stable of Scottish village inn. Landlord is busy repairing a piece of harness and is carrying on at the same time a conversation with the village blacksmith. Enter farmer.

Farmer—Look here, landlord. Can ye gie me a bottle o' yer best whisky?

Landlord—Weel, ye see, the horses are a' out, an I dinna ken when ony o' them'll be hame.

Farmer—It's no' a horse I want; it's a bottle o' whisky.

Landlord—Aye; but, ye see, they're a guid bit awa', an it'll be late before the first o' them's back.

Farmer (louder)—I tell ye, it's no' a horse, but a bottle o' whisky, I want.

Landlord—Weel, ye see, the beasts'll be tired, an—

Farmer—Gang awa' wi' ye an yer beasts!

Exit.

Blacksmith—Man, John, ye're gettin as deaf as a doorknob. It wasna' a horse, but a bottle o' whisky, the man was askin for.

Landlord—On, aye, I heard him fine, but he didn' pay for the last bottle he got.—Pearson's Weekly.

### A Nice Family Mix Up.

A widower with a number of small children married a widow who was similarly blessed. In due time the newly married couple added to the number. Hearing a voice in the yard one day, the father went out to see what was the matter.

"Well, what was it?" asked his wife as he returned out of breath.

"Your children and my children were quarreling with our children," was the reply.—London Answers.

### Won.

"Dear," said young Mrs. Jellus, "I thought you ought to know. There's a married man who is violently in love with me."

"What?" he cried. "Who is he?"

"If I tell you, will you give me those barrings I wanted?"

"Yes. Who is it?"

"You."—Philadelphia Press.

### Beardless Soldiers.

Modern warriors generally wear hair on their frontispieces. It is thought to give them a martial appearance. But Alexander's invincible soldiers were all bare faced. He compelled them to shave for a sufficient reason—viz, lest the "outside barbarians" of Asia should seize them by their beards and so capture them.

# EVENING NEWS REVIEW.

16TH YEAR. NO. 264.

EAST LIVERPOOL, O., FRIDAY, APRIL 19, 1901.

TWO CENTS

## MILLER'S ALLEGED ASSAILANT LODGED IN THE COUNTY JAIL

He Proves to Be Charles Curtis Staub, a Canton Barber, and a Son of Miller's Neighbor.

## WOUNDED MAN'S CONDITION PRECARIOUS

The Would-Be Robber Was Masked When He Appeared In the Barn. When a Handkerchief Was Placed Over His Face the Millers Positively Identified the Prisoner—The Chase of the Officers Aided by Bloodhounds.

Andrew Miller, the aged farmer of Bayard, who was shot three times by a would-be robber yesterday morning, is reported resting comfortably today, with the physicians hopeful of his recovery, though they admit that his wounds are very serious and that complications may set in at any moment which are liable to result fatally.

His assailant has been absolutely identified and is now behind jail bars at Lisbon, and doubtless a term in the penitentiary is ahead of him. He stoutly denies his guilt, but Miller's neighbors say his appearance is against him. The prisoner is not Charles Staub, of Alliance, as Alliance reports stated, but Charles Curtis Staub, a son of Otis Staub, of Minerva, who is one of Mr. Miller's neighbors. Staub is a barber, 32 years of age, who is married, but does not live with his wife. He was working in Canton until a week or two ago, when he disappeared from there and had not been seen since until he turned up yesterday in the vicinity of Homeworth.

Staub's arrest, so Deputy Chris Bick states, was made by Detective Joseph Moore, of Wellsville, who met him on the railroad track and held him for the arrival of the other officers. He was caught at McGarry's tower, near Homeworth. When Sheriff Noragon came he took the pris-

oner on a hand car and started south for Bayard. Deputy Bick, who was in a road wagon, intercepted the hand car going south, and the prisoner was then taken on to Miller's in the wagon. Bloodhounds from the Canton workhouse were used in tracking the fugitive, but there is a dispute as to whether they were of material assistance.

When taken to Andrew Miller's house, and a handkerchief placed over part of his face, as he wore it in the barn, Staub was fully identified, not only by Mr. Miller, but by Jake Adams, the hired man, and by Mr. Miller's sister, who met the prisoner and her brother as they were running from the barn after the shooting and had a good view of him. The assault took place at 4:30 a. m.

The officers say there can be no doubt that Staub is guilty. A revolver bullet found on the barn floor fits Staub's weapon. A trousers' hook, such as are used in fastening the waistband, was also found on the barn floor and the hook from Staub's trousers is missing.

Sheriff Noragon and Deputy Bick arrived last night at Lisbon with their prisoner. On arrival the prisoner was at once taken before Squire Riddle and held for the grand jury in the sum of \$1,000. Bick says Miller cannot recover, as he was shot through the jaw, the neck and the breast just over the heart.

## VERY FAVORABLE TOWARD METZGER

Were the Affidavits Presented by the Defense In Judge Boone's Court.

## THE COURT SAT UNTIL 10 P. M.

Congressman Tayler Presented a Brilliant Argument in Behalf of the City Solicitor of Salem—His New York Ticket Not Complimentary.

Lisbon, April 19.—(Special.)—Probate court was in session until 10 o'clock last evening, the whole time being taken up by Congressman R. W. Tayler in an appeal for a new trial for City Solicitor L. P. Metzger, of Salem. His brilliant argument was preceded by that of his co-counsel, ex-Prosecutor C. S. Speaker. Judge Boone has not yet passed upon the motion.

The defense presented a number of affidavits, which were not refuted. They made a strong impression in favor of the accused. The affidavit of Miss Mary Camp was first read. It stated that Metzger received \$50 during April, 1900, by check from B. S. Ambler, enclosed in a letter and that Metzger returned the same to the sender with a note of thanks.

Miss Nannie Doyle, stenographer for B. S. Ambler, said in conversation with Metzger, that he (Metzger) had asked her to make an affidavit in support of his motion for a new trial, and that Ambler said to her: "Well, I hope you didn't make it for him." Miss Doyle refused to make affidavit regarding the matter for the reason that she was in Ambler's employ, saying she did not think she ought to contradict him, but would testify in case a new trial was granted. These statements are included in an affidavit of Metzger.

Attorney George T. Farrell made affidavit that he called on Miss Doyle a week ago and states that she said she was present at the conversation between Ambler, Metzger and Dunn and says she did not hear Metzger say to Ambler: "You have given me away to my worst enemy, James Sears." She says Metzger did say to Ambler: "You may tell whoever you please about my receiving money from the city of Salem for transportation to New York and you may publish it in the newspapers and placard it on your house." Miss Doyle refused to make affidavit on three different occasions, because she was employed by Ambler and did not think it would be right to contradict him. Farrell also swears that she refused on April 17 to make affidavit because Ambler did not want her to. He also swears that Ambler interfered by saying that he did not care to have Miss Doyle annoyed and that he had advised her not to sign the affidavit. Miss Doyle also said to Farrell on April 17 that Ambler had said to her that he did not remember of Metzger saying to him: "You have given me away to my worst enemy."

S. B. Jennings of the firm of Stetson, Jennings & Co., of New York, made affidavit as to the ticket to New York, which he furnished to Metzger. He says he purchased a regular excursion ticket and that it was not marked "complimentary." He also swears he formed a very favorable opinion of Metzger and of his business ability and faithfulness to the interests of the city of Salem. A fac-simile of the ticket is attached to the affidavit, showing it to be a regular excursion ticket.

Two affidavits were filed by the prosecution—one by B. S. Ambler and the other by M. L. Mardis, ticket agent of the Salem railroad. Ambler's is long and consists of a general denial of all charges made by the defense in support of the motion for a new trial. Ambler says that Jennings is mistaken in everything he says and his statements all false. Mardis' affidavit is also a general denial of alleged conversations with Metzger in

which the latter is said to have declared that he expected to pay for the railroad ticket.

## SUED FOR A DEED

SAMUEL FROST DEFENDANT IN AN ACTION.

Alleged to Have Sold Lots And Failed to Give Deed—Other Cases in Court.

Lisbon, April 19.—(Special.)—Samuel Frost and wife were made defendants today in an action filed by Jesse D. Holloway. Frost owns lots 537 and 538 in East Liverpool, and during the month he agreed to sell them to Holloway for \$2,490. It is now claimed that the defendants refused to give a deed for the property and court is asked to compel them to do so.

The case of John W. Post against Edwin M. Hukill was submitted to court this morning and judgment was rendered in favor of the plaintiff for \$382. A claim of \$872.65 was set up; also a counter claim leaving the amount of the judgment.

In the case of Wing & Evans vs. the Specialty Glass company, a motion asking to set aside a verdict of the jury was overruled and 50 days given in which to file a bill of exceptions.

The cases of Martha E. Guyton vs. Orlando D. Smith, Wm. P. Cooper vs. Jackson and the Monongahela Combination Coal and Coke company vs. James H. Page et al have been dismissed. The case of Robert Hall vs. John Porter has been settled.

No will was found in the estate of Cornelia Morris, late of Fairfield township, and Mahlon Morris was appointed administrator with \$3,400 bond. A. T. Heaton, J. B. Lyder and James Whitacre, appraisers.

## THIS CITY GETS IT

COMING BROTHERHOOD CONVENTION TO MEET HERE.

East Liverpool Was 81 Votes Ahead of Trenton, Next on the List.

Secretary Duffy today completed the work of canvassing and tabulating the returns of the vote upon the convention city.

The result of the vote showed that East Liverpool had won by 81 votes over Trenton. The other cities which competed for the convention were Akron and Steubenville. They were supported in the order named.

## CREDITORS TAKE IT

Have Possession of the American Laundry Machinery in the East End.

The American Steam Laundry has been forced to the wall. J. J. Purinton and others who held chattel mortgages on the machinery and equipment took possession of the plant a few days ago. This is in effect the same as an assignment, as the mortgages amount to more than the value of the plant. This laundry has been in operation for about two years.

J. S. Rayl and John Forbes have entered suits in attachment in Justice McCarron's court for \$37.50 and \$53.72, respectively, which they claim due from this company.

## STILL IMPROVING THEM

The Y. M. C. A. Rooms Will Soon Be Something to Be Proud Of.

The improvements at the Y. M. C. A. continue. The tile has arrived and will soon be in place; the bath and locker rooms are being painted white and will be varnished, and the awnings have arrived and will soon be in place. If the boys are not proud of their association they should be.

Last night's gym class had eight in it and was led by Mr. Zang. This afternoon, 5 to 6, the first business men's class will be on the floor, led by Mr. John Wallace.

## Robbers Still at It.

Pittsburg, April 19.—The robbers are still at it. Joseph Kountz, on the Braddock road, lost \$1,000 worth, and A. J. Unks, 4539 Second avenue, was held up and relieved of \$1,700.

## RUNAWAY WIFE LOCATED HERE

Alleged to Have Left Her Home In New Cumberland With Another Man.

## THOMAS BILLS IS IN JAIL

Mrs. Alice Sheets, Who Has Been Working in This City for Three Weeks, Is in Trouble—Left in Desperate Circumstances—Her Story.

Constable Miller has earned the reputation of being a very clever detective, but his work of yesterday far surpasses anything in that line he ever before attempted.

Mrs. Alice M. Sheets has been absent from her home in New Cumberland for about three weeks. Yesterday her husband, Thomas Sheets, came to this city and placed his case in the hands of Justice McLane. He had reasons for believing his wife was in East Liverpool. He said he had traced her as far as Wellsville, where, until a short time ago, she had been employed by a family named Shecker.

Sheets informed the authorities that his wife had left New Cumberland with Thomas Bills, who had boarded with them there. He thought if Bills could be found it would not be hard to locate his wife. He swore out a warrant against Bills.

After some difficulty the constable learned that Bills was quartered at the Daley boarding house, Eighth street. Some time during the forenoon he removed his badge and paid a visit to the house. He encountered a woman at the door who, he knew from the description given by the husband, was Mrs. Sheets. He made inquiry for Bills, and was told that he was out. Miller represented that he was in the furniture business and wanted a driver. Bills was recommended as the man for the job and an interview was arranged. The arrest was easy. Sheets could not be found. He is supposed to have gone home.

Early this morning Mrs. Sheets and her little daughter Gracie were at the 'squire's. She is a good looking woman of about 25. Learning that nothing had been heard from Sheets she was bitterly disappointed and she was weeping when a reporter accosted her. She said she had been working at Wellsville, having gone there about three weeks ago. She had left her place there because of trouble with her employers. She came here and got work with a Third street family. Bills, who had been at the place where she worked in Wellsville, came on here. Mrs. Sheets got a situation at Mrs. Daley's, after she had finished on Third street, and Bills came there to board. He has been there ever since. She did not know why her husband had made the charges. She was with him yesterday, and went to the train when he left. She said she had never had trouble with Sheets and never put him out of the house at New Cumberland to take Bills in. Her husband was in debt and had consented to her working in Wellsville to help pay his obligations, she said.

Mrs. Sheets said she was destitute, and was endeavoring to secure enough money to send word to her father, who lives in New Cumberland. She stated she had nowhere to go with her child, as the Daley people had put her out and would not permit her to stay there.

Mrs. Sheets telegraphed her father just before noon, and it is likely her husband will arrive this afternoon.

If Sheets is not heard from by this evening Bills will be released.

## THE BASE BALL SEASON.

It Opened Yesterday, But Only One Game Was Played.

Although the base ball season opened yesterday, on account of the bad weather, only one game was played in the National League. It resulted as follows: Brooklyn 12, Philadelphia 7.

## HIS LIFE THREATENED

MACK STANLEY, OF JETHRO, CALLED FOR PROTECTION.

Had George Biddle Arrested But Would Not Guarantee Payment of Costs.

George Biddle and Mack Stanley, whose houses adjoin each other in Jethro, have been engaged in a jangle for several days, and the climax was reached last evening when Biddle is alleged to have told his neighbor that if he persisted in bothering him he would kill him.

Stanley lost no time in covering the distance between Jethro and the office of Justice McLane, where a warrant was sworn out charging Biddle with threatening his life.

Constable Miller arrested Biddle late in the evening, and arrangements were made for him to appear this morning. He pleaded not guilty when arraigned, and as security was demanded to cover the costs, the case was not set for trial.

Stanley refused to give bond to secure the costs, saying he merely came into court in an endeavor to secure protection for his family and property. If he couldn't get that without giving bond he had no desire to proceed with the case, and it was dismissed.

## CHINA COMES TO TERMS

EDICT ISSUED FOR WITHDRAWAL OF HER TROOPS.

Will Leave Hual-Lu And Franco-German Expedition Will Be Abandoned.

Pekin, April 19.—(Special.)—An imperial edict has now been issued for the withdrawal of Chinese troops from Hual-Lu. The Franco-German expedition has consequently been abandoned.

## LIBRARY BOARD VISIT.

ITS TRIP TO PITTSBURG AFTER IDEAS ON ARRANGEMENTS.

Members Much Pleased With the Result of Investigation at Lawrenceville.

The members of the Carnegie board who visited the Lawrenceville branch yesterday, arrived home last evening, and are very much pleased with the result of their investigations. The party was made up of George Peach, W. C. Thompson, G. Y. Travis, J. J. Purinton, Clerk Hanley and Architect Scott.

The floor plan of the Lawrenceville branch is the same as that laid out for the building here, and consequently the board members were able to get an excellent idea of the furnishings necessary for the East Liverpool structure. Their trip will also enable them to figure upon plans that will be improvements over the arrangement at Lawrenceville.

## PROPERTY IN JAPAN

To Be Purchased for M. P. Girls' School—The Church Congress.

The downpour of rain yesterday afternoon and evening had but little perceptible effect upon the missionary convention in the Methodist Protestant church. The devotional meeting was conducted in the morning by Mrs. Belle Fink, of Springdale, Pa., and in the evening by Mrs. James Lee, of Bellevue, Pa.

It was decided at the business session to purchase additional property in Yokohama, Japan, for the girls' school, at a cost of \$9,000. Dr. Lucas preached a strong sermon in the evening. Tonight at 8 o'clock the Rev. Dr. Shaffer, president of the Pittsburg conference, will preach.

**"Our Low Expense"****Cash System****"Selling of Shoes"**

Oilettes Free—Ask Us!

**SLEPT IN THE COOLER.****East End Man Arrested But Released This Morning.**

Stockdale Smith was arrested by Officer Spence yesterday afternoon and given a ride to town in the patrol. He had a little more than he could carry and had settled down on the railroad bank just below Mulberry street crossing. He slept in the cooler last night. Smith had no money and the mayor was convinced that it would be useless to keep him in jail, so he was released on his own recognizance this morning.

**COUNTY AND NEIGHBORHOOD.**

There is a case of smallpox at Hudson and another at Martin's Ferry.

Alliance police say drunkenness is on the decrease in that town.

Massillon has a haunted house in which it is claimed ghosts walk nightly.

John Frost, a well known contractor stone mason, is dead at Wheeling.

Sebring people are again agitating the project of an electric railway to Alliance.

R. S. Baker, superintendent of Hubbard school, will take charge of the Hubbard Enterprise June 1.

J. T. Campbell, a veteran of the Mexican and Civil wars, is dead at Martin's Ferry, aged 76.

Michael McCormack, an insane man who cut his throat and died in Buffalo, was formerly a resident of Canton.

Employees of the Mahoning electric lines at Youngstown have been given a voluntary wage increase of seven cents an hour.

Smallpox has broken out at Western Reserve academy, and 50 students of that institution are closely quarantined in the dormitories.

Aduella Mueller, the 3-year-old daughter of W. Mueller, painter, 4514 Minerva street, Pittsburg, lies dead at her home, a victim of a patent soothing syrup.

Miss Ida Blanche Davidson, of Clarkson, went to Chicago last week and on Monday was married to Robert M. Stevens, a rich mine owner and politician of Arizona.

The Republican convention at Barnesville nominated R. J. McMillen, of Mead township, for commissioner; Dr. C. C. Cole, of Pease, for coroner; L. L. Scheele, of Martin's Ferry, for clerk of courts.

M. W. Beacom, of Cleveland, has been appointed director of law of Cleveland by Mayor Johnson. Mr. Beacom is a brother of B. D. Beacom, manager of the Stark County Telephone company at Alliance.

**The Best Blood Purifier.**

The blood is constantly being purified by the lungs, liver and kidneys. Keep these organs in a healthy condition and the bowels regular and you will have no need of a blood purifier. For this purpose there is nothing equal to Chamberlain's Stomach and Liver Tablets, one dose of them will do you more good than a dollar bottle of the best blood purifier. Price, 25 cents. Samples free at Alvin H. Bulger, Druggist's.

We have put in a new department this week; when you want a good trunk, valise or satchel, see

**AT THE WEST END****A Petition Being Circulated for a City Bridge Across Carpenter's Run.**

A petition is being circulated in the West End which requests the city to build a bridge across Carpenter's run, from Chestnut street to Eighth street. Every one that it has been presented to has signed it, and it is stated that the matter will be brought before council at a very early date, perhaps at the meeting on next Tuesday night.

The residents think they are fairly entitled to this improvement, as much more expensive work is being done for the East End, they say, and improvements not needed near so much are being made in other parts of the city. The grade on Chestnut street is very steep and in muddy weather the street is almost impassable. The bridge would do away with this part of the street and would join the two parts of the suburb with a good highway, in place of the very unsatisfactory roundabout mud road that is now in use.

**CLAY DIGGERS' STRIKE.****It Was For a Cent a Ton And Lasted 36 Hours.**

The miners employed in the clay banks at Walker's went out on a strike at noon Wednesday and went back to work in 36 hours afterward, their grievances having all been adjusted. They demanded a raise of a cent a ton and a mule to haul their stuff from the bank. Previously they received 19 cents per ton and had to cart the clay out by hand. Now they get 20 cents a ton and haul the clay out with the mule.

The old clay bank has been opened up and the work is being pushed vigorously.

**Burbick And His Fiddle.**

Charles Burbick paid the West End a short visit yesterday. He had his violin with him, but was unable to favor the barber shops with any selections, as the instrument only had three strings. Charles states that his contract to play at the Pittsburg exposition has been broken off, as he couldn't get the amount of money he wanted. He now thinks of opening up a dentist's office in the West End.

**WEST END NEWS NOTES.**

The painting of the Jethro bridge was completed today.

Daniel Risen, a laborer who resides on Lisbon road, has gone to Pittsburg in search of employment.

A West End teamster has struck on a novel plan for fattening his horses. He feeds them on self-rising flour and water, with the result, he says, that they are nearly twice as large as when he began a week ago.

**Confiscation in Morocco.**

It is a custom in Morocco that all the property of an official reverts at death to the crown. The logic which leads to such a result is simple, for the government argues that all fortunes thus accumulated consist of moneys illegally retained by the authorities. A governor when appointed is probably possessed of no considerable fortune. When he dies, he may be a millionaire. Whence came his wealth? Squeezed most certainly from the tribes under his authority and therefore amassed only by the prerogatives of the position in which the sultan had placed him. It has never struck the Moorish government that these great fortunes might more honorably be returned to the people from whom they were stolen. The result is entire confiscation to the crown, including often such private property as his governor may have been possessed of before his appointment and not seldom, too, of the property of his relatives.

When the mighty fall in Morocco, the crash brings down with them their families, even uncles and cousins and all connected with them, and it is not seldom that the sons of great governors, who have been brought up in the luxury of slaves and horses and retinues of mounted men, have to go begging in the streets.—Blackwood.

# NEW AERIAL TORPEDO

Wonderful War Weapon Which Was Invented by a Woman Physician.

SHE IS DR. ALSBAU, OF N. Y.

Invention Warmly Praised by Government Experts—Extreme Lightness of Torpedo And Projectile Makes It Easy to Handle And Fire.

A woman—Dr. M. J. Alsbaue, of New York city—is part inventor of a new engine of destruction for use in naval warfare, which she expects will supplant all the torpedoes and projectiles now in use. The device has not yet been tested by any government, but a company capitalized for \$1,000,000, which Dr. Alsbaue has incorporated, is now building a full sized model while negotiating with the navy department for an official trial of the apparatus.

The chief novelty of the device, as claimed by the inventors, says the New York Journal, is that after leaving its projecting mechanism it separates, the main portion continuing on its course under the water while the other section rises to the surface, continues its flight through the air and strikes the target above the water line.

The invention is called the "Just-Alsbaue torpedo." Dr. Alsbaue, who is an attractive woman, still young, who has patented several electric devices and who holds diplomas crediting her as a mechanical engineer, said:

"It is my invention of the electrical automatic steering apparatus that has made the torpedo practicable. The original device was invented by Captain Wemyss Just, of Australia, formerly of the British navy. When he was here a year ago, I became interested in the problem he was trying to solve.

"Experts abroad had warmly indorsed his projector, by means of which an extremely light overhead torpedo would be utilized in connection with an under water projectile with a range of four miles and controllable without wires or connections of any kind. Captain Just explained to me his difficulty about insuring the direct course of the torpedo under water.

"Being an electrician, I thought I saw a way out of the difficulty by that means. As is often the case with inventors, the principle of the automatic steering fins, finally perfected, came to me like an inspiration. I adapted to Captain Just's small model a miniature of my steering idea.

"Talking of naval warfare and the blowing to pieces of great battleships," continued Dr. Alsbaue, smiling, "it sounds funny for me to say that our first successful trial of the improved device was made in a bathtub.

"But the results of this and subsequent tests were so encouraging that I had no hesitation in putting my money into the torpedo. I went to Washington and secured patents. I also showed the model to government officials and had the pleasure of hearing them say, 'This dual weapon is superior in all respects to any torpedo now in use.'

Captain Just is not now in this country. Dr. Alsbaue explained the new torpedo in detail. She claims that the extreme lightness of the torpedo and its projector makes it equally effective for use from the deck of a man-of-war, from a torpedo boat or any other light draft vessel, or from a land battery or a fort. The means of propulsion in the projector and the explosive used in the missiles are secrets carefully guarded.

The forward end of the torpedo is adapted to fit in a corresponding socket at the rear end of the false head, or shell, which does its work above the water line of the enemy. The latter part when in place is temporarily locked to the head of the main portion of the torpedo, and when fired the pins holding the false head are automatically depressed, thereby freeing the false head, which is kept in place by friction and water pressure.

The head of the torpedo at a given time in its flight, separating itself from the main body, strikes the enemy's ship above the water line. Both of the projectiles will surely reach home, as the torpedo proper, by liberating compressed air through the discharge orifices to the ejectors, forms a hydraulic jet which impinges against the water.

Hitherto it has been necessary where such weapons have been used to employ them in close proximity to some base of operation, from which source the firing agent was obtainable by making metallic or other connections. The power employed is the progressive explosion of a number of miniature cartridges, which ignite a mixed petroleum and compressed air spray.

The faster the torpedo goes the more rapidly will these cartridges be exploded. The petroleum spray, under pressure being ignited electrically, the power throughout becomes a cumulative one.

In the central section of the main body is a centerboard pivoted at the

forward end, that may be swung up within the body or dropped down automatically to assist maintenance of equilibrium and regulate the course of the torpedo while in operation.

The depth to which the torpedo attains is regulated by two side wings secured adjustably at the outside of the shell of the rear or tail portion, which can be set at any desired angle, according to the extent to which it is desired to have the torpedo enter the water.

"In the event of the projectiles missing their mark," said Dr. Alsbaue, "there is no danger of their becoming a floating menace afterward, as is an objection to some torpedoes. Within half an hour they will explode through the dissolving of a gelatin coating and the resulting chemical change."

## Sale of Dress Goods.

By far the best and largest assortment we have ever offered. The stock is at its best now, and now is the best time to make your selection, as the choice things go first and in a great many cases cannot be duplicated. Come in soon and see the new wash goods.

## Imported DIMITIES.

Plain colors, pink, blue, green—colored grounds with white figures, neat and large patterns, dots and stripes, pink, tan, grey, green, black, and a great many shades in blue—almost 100 pieces—no two alike, 22c and 25c. Quite a number of these dimities are in small pieces and when sold we will not have again this season.

## Domestic DIMITIES.

A beautiful range of patterns, colorings as pretty as the higher priced goods, grey, green, blue, helio, pink, black, tan, also a lot of the new tan effects with colored stripes, 15c. About 75 pieces of these from which to make your selection. Other dimities 5c, 10c, 12½c 18c and 20c.

Lot of printed batistes for waists, dresses or wrappers, 12½c.

## Cotton Foulards.

New mercerized cotton Foulard styles, permanent and look very much like silk, beautiful designs and combinations, brown, tan, grey, blue, pink, old rose, green and black and white, 25c, 35c, 45c and 50c.

Lot of embroidered Swiss cords in good assortment of colorings and patterns, 20c.

## Silk Mousseline.

Plain polka-dot, and dot and stripe, tan black, white, blue, pink and maize—48c and 50c. These make very pretty lightweight dresses, as they are 30 inches wide and are not expensive.

Lot of cotton Crepon, blue, pink, tan; maize and green, imitation black lace stripe, 15c.

## Ginghams.

Anderson Gingham in wide, pastel colored stripes for shirt waists, 40c.

Other pretty shirt waist Ginghams, 25c, 30c and 35c.

Lot of new stripe Ginghams in the new colorings 15c. Other Ginghams, 7½c, 10c and 12½c.

Lot of 30-inch Madras Cloths, seconds but will wear as well and answer every purpose as well as the perfect goods, 10c.

New Gala Tea Cloths, 12½c and 15c.

New Cotton coverts, 12½c.

Lot of 31-inch Percales, blue and white, red and white, black and white. 7½c.

Light and dark Percales, new styles, 12½c.

Plain Persian Lawns, pink and light blue, 25c.

Plain Ginghams for shirt waists and shirt waist suits, green, pink, blue, old rose, 25c.

Plain Linens for waists or suits, new shades, 60c.

Plain black Persian lawn, 25c and 35c.

Fancy black thin goods, 15c to 50c.

Imported Swiss dress patterns, 45 inches wide, 6 yards to the piece, \$1.25 per yard.

## Goods for

## Commencement Dresses.

Persian lawns, fine sheer qualities, 25c, 35c and 45c;

48-inch fine Swiss Mull, 25c, 50c and 75c.

White Dimities, 10c to 25c.

White India Linens, 8c to 45c.

White India Silk, 40c, 50c and up to \$1.00.

# WASHINGTON LETTER

Treating of a Variety of Live Topics at the National Capital.

## FEWER SOLDIERS ARE INSANE

The Malady Due to Fever, Heat And Exhaustion And Not of Long Duration—Uncle Sam's Fine Gun Factory at Washington.

[Special Correspondence.]

There has been of late a marked decrease in the number of insane soldiers received at St. Elizabeth's from the Philippines. The last lot arrived a few days ago and comprised but seven men. Soon after the troops became actively engaged in the islands the institution received at frequent intervals lots composed of 18 or 20 men each, but both the number and frequency of the arrivals have gradually diminished. This has been particularly true in the past two months. The largest number last year came in the summer and autumn.

Dr. A. B. Richardson, the superintendent of the institution, says that there are but 80 soldiers from the Philippines now under his care. These are mostly the residue of those received during the whole time of military operations in the east. They form less than half of the 168 soldiers now left from those received in the Cuban and Philippine operations. The superintendent states that the greater part of the cases received from the east seldom remain at the institution more than a few months. Most of them are in very good condition when they reach this country, owing to the change of environment and the long sea trip, so that few bad cases are received at all. Insanity in the majority of these cases is due to fever, heat and exhaustion, while the rest are more often the result of insanity previous to entering service. Dr. Richardson says that the cases due to fever are many less than in the Cuban campaign, but that the other temporary cases due to heat and exhaustion are more numerous. He considers this hardly surprising in view of the fact that most of the volunteers, unused to hardship and the incidents of army living, are brought into surroundings full of danger and into an entire change of climatic conditions.

### Our Fine Gun Factory.

With the growth of the American navy there has come a vast increase in the means of supplying the equipment of modern warships, and nowhere is this better illustrated than right here in Washington, where is located one of the finest gun factories in the world. The Spanish-American war brought to the attention of those in authority at the navy yard here the necessity of increased facilities for the manufacture of war machinery, and congress has heeded the demand. The men of 20 years ago, when the gun-shops at the navy yard were inclosed under four roofs, would hardly recognize the modern factory of today which stands at the foot of Eighth street southeast.

There are now over 30 buildings in the yard, and few of the old structures are standing. The old breech mechanism shop, which until 1890 held the offices of the ordnance department, is soon to be demolished, and a modern building in keeping with the progress of affairs will take its place. At present there remain only the shellhouse, the laboratory and the metal testing house, formerly the old magazine of the early structures. These will probably give way to up to date buildings within the next year or so, and then the equipment of the yard will be complete from a manufacturing standpoint, though there will not be room enough for the output of the establishment.

### He Claims Thirty-five Cents.

Mr. Frederick E. Rittman, auditor for the war department, receives many queer letters from people who have or think they have claims against the government. One came recently from a man in New York, who stated that he had a civil war claim for 35 cents which he hoped the government would pay, with accrued interest.

In his letter he said that he had formerly presented his claim and that it had been partially settled, but that this amount yet remained unpaid. An investigation of the records disclosed that a number of years ago the New York man had been paid 70 cents as settlement in full of his claim. Mr. Rittman advised him that the records of the department did not show that he was entitled to receive 35 cents and that if he expected to collect he would have to prove his claim.

### Would Leave Team at the Door.

Senators Cullom and Mason, driven by an ancient negro and crowded into an old "night liner" cab, came up Pennsylvania avenue the other afternoon. A friend stopped them at Fourteenth street.

"Whither?" he asked.

"The senators of the imperial state of Illinois are now on their way to

call on the chief executive," Senator Mason replied.

"Hub!" said the friend. "I should think the senators from the imperial state of Illinois should have at least two horses to their conveyance when going on such a distinguished errand."

"It doesn't matter," Senator Cullom put in. "We shall not take the rig into the White House."

Under an order issued by the war department the Porto Rican volunteer regiment will be mustered out of the United States service on or before the 30th of June next and will be reorganized in accordance with a special provision of the act for the reorganization of the army. The statute provides for the organization of a regiment of three battalions, composed entirely of natives of the island of Porto Rico and officered by officers detailed from the regular army of the United States.

Colonel Charles F. Humphrey, who has been chief quartermaster with General Chaffee in China, has been ordered to the Philippines. He will make a tour of the islands, visiting various posts, and return to Manila about June 1 to assume the duties of chief quartermaster in the islands, relieving Major Miller.

CARL SCHOFIELD.

## A LUCKY NUMBER

Was the Number Thirteen for Three Duck Hunters from the Southside.

Ed Messer, Walter Cronin and E. S. Good spent the afternoon yesterday duck hunting down the river. They returned in the evening with thirteen ducks as the result of the afternoon's sport.

They did not seem to be at all unhappy because they got the unlucky number, but were perplexed for some time to hit on a plan by which they could divide thirteen ducks among three men. Finally cuts were drawn with the result that Mercer got the thirteenth duck.

## CHESTER BREVITIES.

Mrs. John Hoskins, of California avenue, is very ill with tonsillitis.

I. Grootzinger is erecting a building in the park in which he will open up a photograph gallery this spring.

J. M. Shuck, who is building the roller coaster at the park, was called to his home at Bedford, Pa., by the serious illness of his mother.

Work at the park was suspended today on account of the inclement weather. Forty Italians who were sodding the railroad banks were also laid off.

## WALKED FROM LISBON.

Engineer Nicholson Took the Short Cut Home.

Wesley Nicholson, a popular engineer of this city, was subpoenaed to Lisbon Wednesday, and as he was unable to get a train for home after 2:30 o'clock he started to foot it, so as to be able to work yesterday morning. He arrived home about 10 o'clock Wednesday evening and the employees of the pottery are now having much fun at his expense, wanting to know if he walked home to save car fare.

## For Those Who Smoke.

The great point in pipe smoking is to learn to smoke slowly. When this habit is acquired, the full flavor of the tobacco will always be enjoyed, every smoke will be a cool one, and tongue burning will be unknown. It is, however, very hard for nervous people to smoke slowly. We know of cases where smokers have tried for a score of years to check their smoking speed without success. They probably did not begin to make the effort early enough in their smoking careers. With good tobacco and a root pipe the slow smoker attains a degree of pleasurable enjoyment in smoking of which the rapid smoker has not an inkling.

Perhaps all smokers do not know that it makes no difference in the flavor of pipe tobacco how many times a pipe goes out. A cigar which is allowed to go out once has its flavor ruined and is most appreciably termed a butt. A pipe, however, tastes, if anything, better for going out.

Fastidious smokers always have at least two pipes at hand and never fill one until it has entirely cooled off. This is a help toward cool smoking and reasonable life in a pipe. A good test by which to tell if you are smoking too fast is to hold the bowl in your hand. If it is too hot to do so, then you may know your speed is too great.

—Exchange.

## Fixed It.

Mamma—Now, Freddy, mind what I say. I don't want you to go over into the next garden to play with that Binks boy. He's very rude.

Freddy (heard a few minutes afterward calling over the wall)—I say, Binks, ma says I'm not to go in your garden because you're rude, but you come into my garden—I ain't rude.

## DOCTOR VINDICATED

State Medical Board Dismisses Charges Against Hemphill, of Irontdale.

Columbus, April 19.—(Special.)—The state medical board of registration and examination yesterday afternoon dismissed the charges brought against Dr. S. W. Hemphill, of Irontdale, to revoke his certificate as a practitioner. About a year ago other physicians preferred charges against him, accusing him of unprofessional conduct and of neglect of a physician's duties.

## FOUR WERE HELD

For the Murder of Kahney And Fitzgerald at Pittsburg.

Pittsburg, April 19.—The coroner's jury held Edward and John Biddle alias Wright, and Jessie Biddle and Walter Dorman responsible for the murder of Groger Kahner and Detective Fitzgerald and recommended that they be held for the grand jury. Mrs. Mae Smith, at whose house Fitzgerald was killed, testified, but told nothing new.

## SEBRING-SALEM LINE

Every Prospect of the Electric Railway Project Being Carried Out.

Advices from Salem state there is every prospect of the Alliance, Sebring and Salem electric railway being pushed. It is stated positively that work will begin soon and be carried to completion.

## BILL OF THE PLAY.

Mamie Gilroy is to star in "My Sweetheart."

A new play of London detective life is called "From Scotland Yard."

Mascagni may tour America next season, heading an opera company.

Mrs. Langtry's daughter may have a small part in a play to be produced by the Lily.

Blanche Walsh, according to her manager, has had the most successful season during her career as a star.

Henry E. Dixey, now in vaudeville, may play Young Marlowe in Stuart Robson's revival of "She Stoops to Conquer."

Plans for taking "Ben-Hur" to England have about been completed. The production will be the biggest ever taken across the Atlantic.

Gounod's "Faust" brought \$145,840 to the Paris opera last year through its 40 performances, twice as many as any other single opera enjoyed.

The earliest of American novels to be turned into a drama was Harriet Beecher Stowe's "Uncle Tom's Cabin." That was done almost half a century ago.

A woman composer of opera seems to have arisen, and this rare creature is of all nationalities the most unexpected, an English woman, and her name is Smyth.

Cecil Raleigh's melodrama, "The Price of Peace," which is being produced in New York, is a four act play with a cast of 32 principals, but embracing altogether 68 speaking parts. It is in 18 scenes.

There are two methods of producing queens, artificial and natural. Artificial queens are those raised from cells produced by the bees at the will of the apiarist. Natural queens are those raised by the bees.

## Barbers of Spain.

The barber's business in Spain is peculiar in that he is called upon to ply his shears on donkeys as well as men, for it is an important item in the care of Spanish donkeys that they should be sheared as to the back in order to make a smoother resting place for man or pannier. So, while the master held his animal, one of the barbers piled some enormous clacking shears and littered the ground with mouse colored hair, leaving the beast's belly fur covered below a fixed line and for a small additional price executing a raised pattern of star points around the neck.

The tonsorial profession is an indispensable one in a country where shaving the whole face is generally practiced among all the humbler orders, not to mention toreros and ecclesiastics. But the discomfort to which the barber's customers submit is astonishing. Instead of being pampered, soothed, labored at with confidential respectfulness and lulled into luxurious harmony with himself, as happens in America, a man who courts the razor in Spain has to sit upright in a stiff chair and meekly hold under his chin a brass basin full of suds and fitting his throat by means of a curved nick at one side.

## Babies in Greenland.

The bed of the baby Eskimo is not always one of elder down. There are times of famine now and then when the condition of the ice makes hunting impossible, and old and young starve to death. Cases have been known on both shores of Baffin bay where babies have been eaten by starving adults, but infanticide in Greenland is unknown because of a belief that the spirit of a murdered infant turns into an evil spirit called Angiak that forever haunts the entire village and brings endless misery and distress.

When a friend is in trouble, don't ask, "Can I do anything?" Do something.—Acheson Globe.

## OLD SAM HOUSTON

The Most Picturesque Figure of His Time in the U. S. Senate.

## CLAD IN INDIAN BLANKET

Busied Himself in Whittling Pine Sticks—His Quitclaim Deed to One Hundred And Sixty Acres of Land.

General Sam Houston of Texas was the most picturesque figure in the senate during my first years of service at the capitol. Like Benton, he was very fond of young men and soon came to count me as "one of his boys." Only those who were youngsters in the forties can realize the interest people felt in Houston in the days when his part in the struggle for the independence of Texas was still fresh in the public mind. Visitors to the senate chamber invariably asked to have him pointed out to them, and they were never disappointed in their hero, for he was large of frame, of stately carriage and dignified demeanor and had a lionlike countenance.

Always unconventional in dress, he would now and then appear at the capitol wearing a vast and showy sombrero and a Mexican blanket, a sort of ornamental bedquilt with a slit in the middle through which the wearer's head was thrust, leaving the blanket to hang in folds around the body. His principal employment in the senate was whittling pine sticks, of which he seemed to have an unlimited supply. It was only at rare intervals that he broke silence, but when he did speak he always proved himself capable of contributing his quota of sound and patriotic advice to the deliberations of the senate.

No passage in Houston's career was nobler than the heroic stand against disunion which marked its close, while of his kindness of nature and generous helpfulness to those in distress one could recall stories sufficient to fill a volume.

Near Quincy, Ills., there was a stretch of country known as the "Indian tract," to which Houston held title, a fact many of the settlers thereon, a careless pioneer brood, failed to search out. One of them called upon William A. Richardson, long member of the house from the Quincy district and subsequently a senator from his state, and asked if he knew Houston. Richardson said he did, whereupon his visitor confided to him that he had inadvertently settled upon 160 acres of Houston's land and that all he was worth stood in improvements on it. He wanted Richardson to see Houston and make the best terms that he could. Richardson upon his return to Washington told Houston the story and asked what he would take for a quitclaim deed to the 160 acres.

"What sort of a man is this constituent of yours who has blundered upon my land?" asked Houston.

"A good, square, honest man," was the reply.

"When I turn him off my land, I reckon he and his family will be beggars?"

Richardson nodded.

"What's this farm worth now?" asked Houston.

"Improvements and all about \$6,000," was the response.

"What was the bare place worth when you fellows went on it?" queried Houston.

"About \$5 an acre; \$800 in all," answered Richardson.

"Good fellow, this man of yours, Richardson?" this after a moment's thought.

"Best in the world," said Richardson. "Tell him to send me \$800, and I'll make him a deed."

In due time the \$800 reached Washington in the shape of a New York draft. Richardson sought Houston, who, having executed a deed, took the draft and indorsed it.

"You say this man of yours is a good fellow?" he asked thoughtfully.

"Couldn't be a better one," was the emphatic answer.

"Send him back this draft and tell him Sam Houston has changed his mind. What can you buy a good saddle horse for out in that country?" He was told that \$200 would do it. "Well, then," said Houston, "write to your friend and tell him to buy a first class saddle horse about 4 years old and keep him for me. When congress adjourns, I will go home with you and ride the horse down to Texas."

Without delay the man in Illinois received back his draft and bought a saddle horse, the best he could find. Just before adjournment Houston sought Richardson. "You say the fellow who's got my horse is a tiptop good man?" Richardson again declared him one of the best in his district. "Well," said Houston, with a sigh, "I should have liked first rate to see him and also my horse, but as affairs turn out I must go straight to Texas. When you get home, go over and see this man and tell him

## The Leader's Great

# MILLINERY SALE

Commences..... **SATURDAY, APRIL 20** .....Continuing

FOR ONE WEEK. A Sale that will overshadow all others by reason of the Variety of Offerings and their Low Prices.

### 50 Ladies' Trimmings

You can buy the latest Columbia records at G. R. Pattison's, jeweler. 264-h

For a few days only—\$5 photos for \$8 a dozen. See Spencer's ad. 2591tf

### Weak.

"Do you know that Nigster is so weak that he can't stand alone?" asked Browne.

"Good gracious, no!" replied Jones.

"What is the matter with him?"

"Why, I asked him if he could stand a loan of 10 shillings and he said he couldn't."—London Fun.

### What a Curio Is.

"What is a curio, father?"

"A curio is a piece of china that your mother has had spared to her through the devastating dynasties of seven or eight cooks."—London King.

"You can convince a woman that the earth isn't round," said the breakfast cynic, "but you can't convince her that the druggist doesn't make 50 per cent profit on postage stamps."—Philadelphia Record.

It is a Welt Shoe, very soft, durable stock. Plain toe, lace and congress, unlined. Call and See it.

## The Sleepless Shoe Firm,

C. H. BENCE, Manager.

## Valuable Possessions.

You can get possession of a valuable pair of Shoes without paying very much if you come to our store. You can depend on getting them for very little more than we pay for them. You could not get them for very much less than we are asking if you took them by force. We consider (and so will you after seeing it) our **KILNEN'S SHOE** the best Shoe Value ever offered in East Liverpool at the price, **\$2.50.**

# NAPOLEON'S WISDOM

The Great General Understood the Value and Importance of Discussion.

## IT IS HELPFUL IN MANY WAYS

It Does for the Brain—What Exercise Does for the Muscles—The Mighty Corsican's Ideas on Religion And the First Great Cause.

Man exercises his muscles to improve them. He competes muscularly with his fellows, and rivalry of muscle ends in muscular improvement all around.

What exercise does for the muscles discussion does for the brain.

The importance of discussion Napoleon appreciated thoroughly.

And when he discussed, he discussed like a big man, selecting questions to exhaust the mind and lead far away into fields of conjecture and widest speculation.

His was no dreamer's brain, giving to speculation the time needed for doing. First came the real work of the day or hour—the planning and finishing of details, from the disposing of army corps to the smallest final arrangements.

Then, free from actual work, seeking relief from concentrated application, his brain sought rest in talk worth while.

On his voyage to Egypt, determined to waste no time, he organized serious discussion as methodically as he ever organized a fighting plan.

The discussions were regularly appointed affairs.

Needless to say, Napoleon arranged everything and controlled everything.

He selected the subject for discussion, he chose the three or four on each side to support and oppose any given proposition.

These were his favorite topics: First, the art of war; second, the art of government; third, religion.

From his point of view his chief subjects for discussion were admirably chosen. They represented the only two things he cared for here below and the final question affecting his fate hereafter.

But his field of thought, like the scope of his ambition, was unlimited.

Once he asked his chosen debaters to decide whether the planets are inhabited.

Again, he discussed this earth's probable ending, by fire or water.

He discussed also the meaning of dreams and the value of "presentiments."

In practical life he discarded everything save realities, but in discussion all abstract questions interested him.

It may interest you to know that in general he denied positively the existence of hell—perhaps that was caution on his part—and maintained that no man should die without confessing his sins.

"Only a fool says that he will die without a confessor. There is so much we do not know and that we cannot explain."

It is deeply characteristic of Napoleon's thought that he should have declared for Mohammedanism in preference to Christianity.

He admired the religion of Mohammed "because it conquered one-half the world in ten years, whereas it took 300 years for Christianity to establish itself."

The old French king became converted because he thought the Christian God beat his pagan god in battle. Napoleon had not traveled far beyond that old king.

The man who seeks for all sorts of wisdom in Napoleon will be deeply disappointed when he comes to analyze the great fighter's religious thought.

But for the hero worshiper there is comfort in this:

Napoleon trifled with everything except the first great cause.

On the deck of his ship on a fine night there was much irreverent, flip-sant, materialistic chatter. The revolution had made stupid atheism fashionable.

But Napoleon was impressed by the

claim might, the blue, dark water and the silent, beautiful stars shining down in cosmic rebuke of the tiny blasphemers below.

He stopped very abruptly the prattle of atheism.

Toward the stars he pointed the short, thick arm so soon to rule this little planet.

"You may talk as long as you please, gentlemen, but who made all that?" There was no answer, and there was no more atheism that night.

The man who was to build up the code Napoleon could appreciate the force and necessity of law. His mind realized the feebleness of man, coping even with little problems of earth.

He felt that great laws and a Great Lawgiver must swing and direct those millions of silent worlds above.

When Napoleon was still a Corsican patriot, the great Paoli said to him:

"Napoleon, you are not a modern. You talk like the heroes of Plutarch."

Earnestness of the old kind was indeed Napoleon's characteristic—as emperor, planning to rule Asia from the back of an ornamented elephant, or as a poor, half starved lad, taking off his muddy shoes to enter the presence of the matronly Mme. Permon and listening to her stories of descent from the emperors of Constantinople.

Napoleon in his hours of work was a doer, and in his hours of leisure he was a discussor.

He exercised constantly the two sides of his brain, the practical and speculative.

Do the same and succeed.—New York Journal.

### To Spell Shakespeare's Name.

It has been shown that Shakespeare's name has been spelled by responsible writers in 1,906 different ways. In his own time his contemporaries spelled his name in 32 different ways.—Chicago Times-Herald.

### STRIKING THE RIGHT SPOT.

That's the Great Secret of East Liverpool Praise Given to Dr. A. W. Chase's Nerve Pills.

There come times to every life when a lack of strength—failing appetite—poor circulation—weak heart action and many other symptoms may break in. They are not diseases—the person may not be laid up until they have existed a long time. The influence of Dr. A. W. Chase's Nerve Pills is to create nerve force, and immediately people find themselves getting well because nerve force controls every vital organ of the body.

Mr. W. S. Gaston, of No. 264 Fifth street, East Liverpool, O., says: "Owing to a functional or nervous trouble and an impaired digestion my heart action was weak and irregular. The condition was far from pleasant and I was induced to get a box of Dr. A. W. Chase's Nerve Pills at Larkins' drug store, corner Sixth and East Market streets. I am pleased that I did so, as the medicine has so strengthened the nervous system and digestion that the heart action is regular and strong and feel otherwise well and generally pleased with the result."

Dr. A. W. Chase's Nerve pills are sold at 50 cents a box at dealers or Dr. A. W. Chase Medical company, Buffalo, N. Y. See that portrait and signature of A. W. Chase, M. D., are on every package.

Clear the complexion of all impurities by using a Face Mask. For sale by Chas. F. Craig, druggist. 261-r

THE SURPRISE CLOTHING HOUSE.

# Carpets

Are engaging the attention of the average housewife just now.

In buying Carpets, either Brussels or Ingrains,

You do not want to experiment on untried and inferior makes. You want something that has been tried and found not wanting, such makes as the

Hartfords and Lowells

We carry these reliable makes and you are always safe in buying them.

## For Anything in Furniture

Everything for any room in the house, you can best suit yourself at

FRANK CROOK'S

### Disappointed the farmer.

"That city man that was visiting me is an overrated cuss," remarked the farmer.

"How so?"

"Oh, the papers all said he was a great hand at watering stock, but I found he couldn't work the pump five minutes without laming his arm."—Chicago Post.

### Ah!

He—Cissie, I've heard it said that a kiss without a mustache is like an egg without salt. Is that so?

She—Well, really, I don't know. I can't tell, for, you see, I've never—

He—Ah, now!

She—Never eaten an egg without salt.—Glasgow Times.

### Japanese Story Tellers.

Professional story tellers roam from house to house in Japan to spin their yarns. In the city of Tokyo there are about 600 of these professional romancers. Their pay averages 20 cents an hour. When the story teller discovers that his romances are becoming dull from frequent repetition, he moves into a new district.

In the fourteenth century the slaughter of women and children after a town or castle had been taken by storm was one of the most common occurrences of war.

The first Rhine steamer made its trips from Rotterdam to Cologne in 1816.

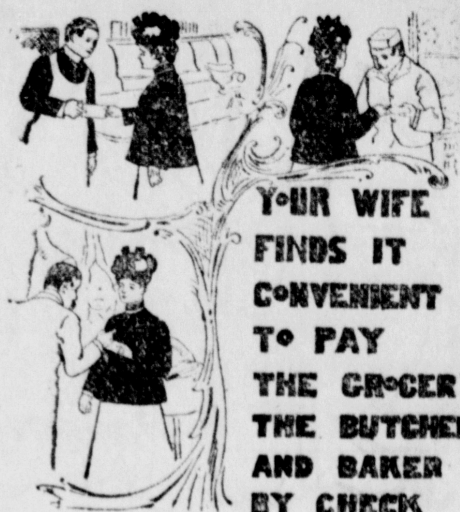

## There is Satisfaction

In a perfect Photo—the kind you get at Spencer's. Here is an offer old customer's will appreciate and new ones will take advantage of.

### \$5 Cabinet Photos for \$3 a Dozen.

I have in stock card-mounts bearing the imprint of the old firm. I want to use them up. The offer holds good only till they are gone. The work will be of the usual high standard, the best \$5 cabinets ever made in the city. Satisfaction guaranteed. Come early to the Studio in the First National Bank Building.

R. E. Spencer.

YOUR WIFE FINDS IT CONVENIENT TO PAY THE GROCER THE BUTCHER AND BAKER BY CHECK

One of the many conveniences derived from having a Bank Account is the payment of all bills by cheque, thus relieving your mind of the necessity for carrying large and unnecessary sums around with you and always be obliged to make exact change.

This is particularly advantageous to housekeepers as it is a preventative against petty mistakes in dealing with the small tradesmen.

### Why He Was Deaf.

Scene: Stable of Scottish village inn. Landlord is busy repairing a piece of harness and is carrying on at the same time a conversation with the village blacksmith. Enter farmer.

Farmer—Look here, landlord. Can ye gie me a bottle o' yer best whisky?

Landlord—Weel, ye see, the horses are a' out, an I dinna ken when ony o' them'll be hame.

Farmer—It's no' a horse I want; it's a bottle o' whisky.

Landlord—Aye; but, ye see, they're a guid bit awa', an it'll be late before the first o' them's back.

Farmer (louder)—I tell ye, it's no' a horse, but a bottle o' whisky, I want.

Landlord—Weel, ye see, the beasts'll be tired, an—

Farmer—Gang awa' wi' ye an yer beasts!

Exit.

Blacksmith—Man, John, ye're gettin as deaf as a doornail. It wasna' a horse, but a bottle o' whisky, the man was askin for.

Landlord—Ou, aye, I heard him fine, but he didn' pay for the last bottle he got.—Pearson's Weekly.

### A Nice Family Mix Up.

A widower with a number of small children married a widow who was similarly blessed. In due time the newly married couple added to the number. Hearing a voice in the yard one day, the father went out to see what was the matter.

"Well, what was it?" asked his wife as he returned out of breath.

"Your children and my children were quarreling with our children," was the reply.—London Answers.

### Won.

"Dear," said young Mrs. Jellus, "I thought you ought to know. There's a married man who is violently in love with me."

"What?" he cried. "Who is he?"

"If I tell you, will you give me those harrings I wanted?"

"Yes. Who is it?"

"You."—Philadelphia Press.

### Beardless Soldiers.

Modern warriors generally wear hair on their frontpieces. It is thought to give them a martial appearance. But Alexander's invincible soldiers were all bare faced. He compelled them to shave for a sufficient reason—viz, lest the "outside barbarians" of Asia should seize them by their beards and so capture them.
